Boeing 737 Manuals Hydraulic System

There is a manual extension access door. When open, there are 3 handles which have to be pulled and the corresponding gear gets down by gravity and air loads. Interesting to know that during normal operations, if the manual extension access door is open, the landing gear cannot be retracted. In all cases here, with loss of hydraulic system A, when the gear is down, it can not be retracted ...

Loss of hydraulic system B on the Boeing 737-800 is not a major failure. We still have the system A and the standby which are enough to fly the aircraft normally. On the previous article, we

have seen that loss of system A is mainly related to the manual gear extension. For the system B, it is mainly related to the flaps

extension. In my opinion, a loss of system B is a little more tricky than ...
