In the case of manual welding, the rod-shaped filler material is added by the welder. The length of these rods is usually one meter and the diameter depends on the chosen amperage. Nowadays there are also torches where the wire is fed automatically from a coil, cold or hot. This can significantly improve the efficiency of the process.

Tig Welding - Heliarc

I have an opportunity to purchase a well preserved LINDE HELIARC 250 HF. It is in great condition, comes with gas cylinder and regulator, water cooling tank, pump and foot controller. It is single phase 220-240 V and has a water cooled tig torch. What should I pay for this, or should I look for something else that allows me to work on aluminum. Also, are there any advantages to the older Linde ...

LINDE HELIARC 250 HF TIG and Stick Welder

The Linde Heliarc 250HF is a real decent industrial grade welder. I have had mine for about 6 years and I paid \$300; about what you would have to pay for an AC/DC buzz box. I had to buy a torch and argon bottle. It is a little big for home use. The manual says it needs a 100A 240V circuit, but I can run mine at about 80% on a 50 amp breaker. They are power hogs and the electricity meter spins ...

Linde AC/DC TIG Heliarc 250HF Welder - Weld Talk Message ...

Working at a community college we just recieved a donated Heliarc 250 HF plus. Had the eletrician wire her up 208 single phase as per the manual. Problem is when the unit is powered up the cooling fan activates (sounds to me like it overspeeds then one leg blows a fuse. This all occurs in about 10 seconds. As I was

poking around in the unit yesterday looking for obvious signs of fried ...
