Web Work: Information Seeking and Knowledge Work on the ...

About this book. This book brings together three great motifs of the network society: the seeking and using of information by individuals and groups; the creation and application of knowledge in organizations; and the fundamental transformation of these activities as they are

enacted on the Internet and the World Wide Web. Of the three, the study of how individuals and groups seek information probably has the longest history, beginning with the early "information needs and uses" studies soon ...

Web Work - Information Seeking and Knowledge Work on the ...

Theoretical frameworks regarding information needs, information seeking and information use is covered in Chapter 1, while Chapter 2 discusses the relationship between data, information, and knowledge. Choo also advocated his own typology of organisational knowledge: tacit,

explicit, and cultural knowledge.

Many accounts of the information seeking process assume an interaction cycle consisting of identifying an information need, followed by the activities of query specification, examination of retrieval results, and if needed, reformulation of the query, repeating the cycle until a satisfactory result set is found (Salton, 1989, Shneiderman et al.,

1998).

Information seeking
may be understood as
a more human-
oriented and open-
ended process than
information retrieval. In
information seeking,
one does not know
whether there exists
an answer to one's
query, so the process
of seeking may provide
the learning required
to satisfy one's
information need .

**Information seeking
- Wikipedia**

Web information
seeking and interaction
(i.e., the interaction of
users with Web-based
content and
applications during
information-seeking
activities) is a topic
that unites many
strands of academic
and commercial
research, from studies
of information-seeking

behaviour to the design and construction of large-scale interactive systems.

Web Information Seeking and Interaction

Information seeking behavior is a more specific concept of information behavior. It specifically focuses on searching, finding, and retrieving information. Information seeking behavior research can focus on improving

information systems or, if it includes information need, can also focus on why the user behaves the way they do.

Information behavior - Wikipedia

The field of Information Seeking behaviour in Information Science can broadly be defined as that which is concerned with determining user's information needs, searching behaviour and subsequent...
