Toward A Sustainable Whaling Regime

The international regime for regulating whaling is a mess. The International Convention for the Regulation of Whaling

(ICRW), the regime's main legal instrument, calls for sustainable management of whaling to "make possible the orderly development of the whaling industry." Yet most members favor extinction of the industry.

Regime Management Planning - Justice

The Court affirmed that the objectives and structure of the ICRW are oriented toward both conservation of whale stocks and management of the whaling industry and to the extent that there is no other international law that prohibits killing whales it is up to the parties to the ICRW, acting together, to determine when and how whales can be ...

To deal with these risks, a Drone Accountability Regime is needed that imposes obligations on states, which in turn would be required to impose them on their agents. Since it would be

infeasible to negotiate a treaty-based legal regime at present and for the foreseeable future, the Drone Accountability Regime should be informal and should involve transnational actors as well as states.
