Teach a Child to Read with Children's Books *Grayson Bernard Pub*

This guide shows parents how to combine story reading, phonics, and writing to help their children develop into skilled and motivated readers. The guide discusses how to prepare children for reading success; how to use children's literature to promote learning and enjoyment; why combining book experiences and phonics is better than using either approach alone; ways to use writing to enhance children's reading progress; why reading aloud is important; and

which books to use and where to find them. Chapters in the guide are: (1) "The 'Great Debate'"; (2) "Acquiring Language and Learning To Read"; (3) "Early Readers: What Can They Teach Us?"; (4) "What Works? One Successful Program"; (5) "Using 'Real Books' in Your Program"; (6) "Preparing for Formal Lessons"; (7) "Book Reading and Strategy Development"; (8) "Learning about Letters, Sounds, and Words"; (9) "Story Writing in the Reading Lesson"; and (10) "Putting It All Together: A Sample Lesson." Contains 79 references. Appendixes present a 600-item bibliography of children's trade books; a special note for Christian educators;

and advice on establishing a tutoring project. (RS)

Raising Confident Readers *Da Capo Lifelong Books*

Raise a Child Who Loves to Read How do kids really learn to read? And how can you encourage interest in reading and writing

from the start? In *Raising Confident Readers*, based on the five phases of literacy development, Dr. J. Richard Gentry provides fun and easy ways to teach your child to read and write successfully. When it comes to language, the most critical brain growth happens in early childhood. *Raising Confident Readers* shows you how to activate and accelerate this capacity for learning: The key is to introduce the right activities at the right time. Whether your child is a baby or toddler, in preschool or kindergarten, or first or second grade, Dr. Gentry helps you identify your child's literacy phase and take the next steps to build writing, reading, and spelling skills. You'll

discover: How your child's brain learns to read—and why encouraging drawing and scribbling is as essential as reading aloud The best at-home activities to develop literacy early, naturally, and joyfully Recommended children's books for each phase Strategies for overcoming dyslexia, delayed reading, and other challenges Checklists and a milestones diary to celebrate your child's progress As your child moves through the five phases, they'll soon be sounding out and spelling words correctly, reading chapter books independently, and writing creative stories on their own. Complete with samples of children's writing

throughout, *Raising Confident Readers* is an essential resource to foster your child's lifelong love of reading.

Teach Your Children Well *Harper Collins*

Psychologist Madeline Levine, author of the New York Times bestseller *The Price of Privilege*, brings together cutting-edge research and thirty years of clinical experience to explode once and for all the myth that good grades, high test scores, and college acceptances should define the parenting endgame. Parents, educators, and the media wring their hands about the plight of America's children and teens—soaring rates of emotional problems, limited coping skills, disengagement from learning and yet there are ways to reverse these disheartening trends. *Teach Your Children Well* acknowledges that

every parent wants successful children. However, until we are clearer about our core values and the parenting choices that are most likely to lead to authentic, and not superficial, success, we will continue to raise exhausted, externally driven, impaired children who believe they are only as good as their last performance. Real success is always an inside job, argues Levine, and is measured not by today's report card but by the people our children become fifteen or twenty years down the line. Refusing to be diverted by manufactured controversies such as "tiger moms versus coddling moms," Levine confronts the real issues behind the way we push some of our kids to the breaking point while dismissing the talents and interests of many others. She shows us how to shift our focus from the excesses of hyperparenting and the unhealthy reliance on our children for status and meaning to a parenting style that concentrates on both enabling academic success as well as developing a sense of purpose, well-being, connection, and meaning in our children's lives. Teach Your Children Well is a call to action. And while it takes courage to make the changes we believe in, the time has come, says Levine, to return our overwrought families to a healthier and saner version of themselves.

Help Your Kids Learn and Love the Bible

Baker Books

As parents, we deeply desire the best for our kids. We look for the right preschool, teach them to read, and get them involved in extracurriculars. We take our job as parents seriously. But are we also putting our time and energy into teaching them the Bible? Leading our kids to life through Scripture is not only doable, it's an essential part of parenting kids for Jesus. And the good news is studying God's Word as a family doesn't have to be hard or overly time-consuming. This book will give you the tools and confidence to study the Bible as a family. It will help you identify and overcome your objections and

fears, give you a crash course in what the Bible is all about and how to teach it, and provide the tools and techniques to set up a family Bible-study habit. You will finish this book feeling encouraged and empowered to initiate and strengthen your child's relationship with the Lord through his Word.

Teaching Your Children to Read Using the Book of Mormon

Turn Autism Around
Hay House, Inc

Help remediate—and in some cases eliminate—autism and other developmental delays in young children, even in as little as 15 minutes a day with this toolkit of behavioral practices

that can be taught at home. Developmental delays and signs of autism usually show up before 18 months of age, yet children are often not diagnosed until they are 4 or 5 years old. In *Turn Autism Around*, Dr. Mary Barbera explains why parents can't afford to worry and wait in long lines for evaluations and treatment while not knowing how to help their children. She empowers parents, caregivers, and early intervention professionals to regain hope and take back control with simple strategies to dramatically improve outcomes for their children. Dr. Barbera has created a new approach to teaching kids with developmental delays

that uses the science of Applied Behavior Analysis (ABA) married with a positive, child-friendly methodology that any parent can use—whether or not their child has delays—to learn to teach communication skills, socialization strategies, as well as tackle sleep, eating, potty training, and behavior challenges in a positive, effective, and lasting way. *Turn Autism Around* is the first book of its kind that calls attention to an important fact: parents can make a tremendous impact on their child's development through behavioral practices taught at home, even in as little as 15 minutes a day. Her program shows these autism and developmental delays

can be remediated, and in some cases, delays can be caught up altogether, if parents intervene while the child is young. This book is for parents of young children aged one-to-five years who are passionate about helping their child as well as learning how they can change the trajectory of their child's and family's life.

Llama Llama and the Bully Goat *Penguin*

Llama Llama likes to sing. Gilroy laughs at everything. Llama sings out just the same. Gilroy says a not-nice name. Teacher has some things to say: calling names is not OK. Llama Llama is learning lots of new things at school and making many friends. But when Gilroy Goat starts

teasing him and some of their classmates, Llama Llama isn't sure what to do. And then he remembers what his teacher told him—walk away and tell someone. It works! But then Llama Llama feels badly. Can he and Gilroy try to be friends again? Taking on a difficult but important part of children's lives, Anna Dewdney gives readers a way to experience and discuss bullying in a safe and comforting way.

Bad Attitudes... in You and Your Kids

Shaw Books

Adding honor as a factor in raising kids ...and parent-child relationships. Dr. Scott Turansky and Joanne Miller offer a thorough program for establishing honor as a basis of family life — not just children honoring parents, but parents respecting children and children honoring each other. Even if honor seems a long way off in your household, you will find practical suggestions here to bring that goal a little closer — suggestions for kids of all ages. Honor is the biblical value that will bring about good behavior. It's more than just changing what kids do; it's changing the deeper issues of the heart that

triggered the behavior.

How to Multiply Your Baby's Intelligence

Square One Publishers, Inc.

Time and again, the work performed at The Institutes for the Achievement of Human Potential has demonstrated that children from birth to age six are capable of learning better and faster than older children. *How To Teach Your Baby To Read* shows just how easy it is to teach a young child to read, while

How To Teach Your Baby Math presents the simple steps for teaching mathematics through the development of thinking and reasoning skills. Both books explain how to begin and expand each program, how to make and organize necessary materials, and how to more fully develop your child's reading and math potential. How to Give Your Baby Encyclopedic Knowledge shows how simple it is to develop a program that cultivates a young child's awareness and understanding of the arts, science, and nature—to recognize the insects in the garden, to learn about the countries of the world, to discover the beauty of a Van Gogh

painting, and much more. How To Multiply Your Baby's Intelligence provides a comprehensive program for teaching your young child how to read, to understand mathematics, and to literally multiply his or her overall learning potential in preparation for a lifetime of success. The Gentle Revolution Series: The Institutes for the Achievement of Human Potential has been successfully serving children and teaching parents for five decades. Its goal has been to significantly improve the intellectual, physical, and social development of all children. The groundbreaking methods and techniques of The Institutes have set the

standards in early childhood education. As a result, the books written by Glenn Doman, founder of this organization, have become the all-time best-selling parenting series in the United States and the world.
