The Science of the Blockchain. FinTech developers and managers understand that the blockchain has the potential to disrupt the financial world. The blockchain allows the participants of a distributed system to agree on a common view of the system, to track changes in the system, in a reliable way.

The Science of the Blockchain by Roger Wattenhofer

The blockchain allows the participants of a distributed system to agree on a common view of the system, to track changes in the system, in a reliable way. In the distributed systems community, agreement techniques have been known long before cryptocurrencies such as Bitcoin (where the term blockchain is borrowed) emerged.

The Science of the Blockchain eBook: Wattenhofer, Roger ...

Abstract. FinTech developers and managers understand that the blockchain has the potential to disrupt the financial world. The blockchain allows the participants of a distributed system to agree on a common view of the system, to track changes in the system, in a reliable way. In the distributed systems community, agreement techniques have been known long before cryptocurrencies such as Bitcoin (where the term blockchain is borrowed) emerged.

The Science of the Blockchain | Guide books

Science Blockchains does not create a token or coin. Rather it brings together the minds behind some of the most ambitious projects powered by blockchain technology. We are a community of developers, artists, and future driven minds who believe that the electricity behind blockchain should be used to directly benefit lives. Together, through a peer-based system of concurrency, we explore projects who dare to push the boundaries and benefit us all.
