The Essential Guide To Walking Bass For Bass Guitar Players gives you detailed knowledge of how to create, play & improvise Walking Bass over the most important 'Jazz' and 'Blues' structures ...after all, Walking Bass is right at the heart of all of the great bass players from Ray Brown or Charles Mingus all the way

through to Jaco Pastorius, Marcus Miller or Victor Wooten. About The Author James Eager has almost two decades of gig performances in the UK as a full time bass player. He has taught hundreds of students in person, and now thousands of students online through his membership site and books. He believes that learning Walking Bass should be a straightforward and obtainable technique for all students. Which led him to the development of 'The 3M System For Walking Bass' and he has been on a mission for the past 15 years to teach this incredible style of bass playing to his students. He has also authored, 'The Complete Guide to

Music Theory for Bass Guitar Players' and 'The Essential Guide to Technique for Bass Guitar Players'.

## **Harmonic**

**Experience** *Simon and Schuster*

An exploration of musical harmony from its ancient fundamentals to its most complex modern progressions, addressing how and why it resonates emotionally and spiritually in the individual. W. A. Mathieu, an accomplished author and recording artist, presents a way of learning music that reconnects modern-day musicians with the source from which music was originally generated. As the author states, "The rules of music--

including counterpoint and harmony--were not formed in our brains but in the resonance chambers of our bodies." His theory of music reconciles the ancient harmonic system of just intonation with the modern system of twelve-tone temperament. Saying that the way we think music is far from the way we do music, Mathieu explains why certain combinations of sounds are experienced by the listener as harmonious. His prose often resembles the rhythms and cadences of music itself, and his many musical examples allow readers to discover their own musical responses.

**Note      Reading**  
**Studies for Bass Mel**

### *Bay Publications*

This book was written for bassists who wish to learn to read music as well as for those who wish to sharpen their music reading skills. The studies in the book progress from beginning to professional levels and represent an variety of styles that modern bassists are likely to encounter in real-world musical situations. For those conversant in music's universal language, a whole world of musical styles, ideas, and sounds is always available. This book aims to sharpen the skills of serious student bass players so that they may partake of this endless stream of ideas, information, and inspiration. Standard notation only. None of the exercises in this book contain

fingering indications. This omission was made in order to make these exercises useful to players of all types of bass instruments, both electric and acoustic. the author strongly recommends that students work through this book with the supervision of a qualified teacher. If you are a professional musician the author hopes this book will help you stay in top sight-reading form, giving you an edge in a highly competitive market. If you are a novice bassist, this book will help you hone your skills in becoming a skilled professional.

**Pentatonic Scales for Jazz Improvisation** *Alfred Music*

More than a pattern book, this lays out the

theory behind the use of pentatonic scales in jazz, and follows with transcribed solos and exercises. Still a favorite after 14 years, this book has become a standard in the field.

**Rufus Reid Bass Lines** *Alfred Music*

Rufus Reid Bass Lines complete bass line transcription book from Volume 1: Jazz How to Play and Improvise and Volume 3: II/V7/I Progression featuring the great jazz bassist Rufus Reid. While reading from the book, play along with the bassist on the recording (sold separately) until you feel you've mastered his feel and nuances. Then, using the special stereo separation on all Jamey Aebersold play-along recordings, switch the bassist off

and play along by yourself with just the piano and drums! This book is a great study in professional bass line construction. Combo instructors can use this book to give their bass students instant, professional bass lines. This book includes notes in bass clef with chord symbols above each measure. Two volumes of bass lines in one book! An absolutely essential introduction method for every bass player wishing to learn the art of professional bass walking. Includes 80 minutes of written jazz bass lines.
