Differential priming effect for subliminal fear and ...

Subliminal messages produce only one-tenth of the effects of detected messages and the findings related the effects of subliminal messaging were relatively ambiguous.[30] Also, participants' ratings of positive response

to commercials are not affected by subliminal messages in the commercials.

What is Subliminal Perception? How Does It Apply to ...

In line with our attentional sensitization model (Kiefer and Martens, 2010), the present study shows a differential modulation of masked semantic priming by semantic and phonological induction tasks: in the first experiment, we found subliminal semantic priming effects only following the semantic induction task, but not following the phonological word induction task, although this difference in priming between induction tasks was not statistically significant. This subliminal priming pattern ...

Testing the attentional boundary

conditions of subliminal ...

The subliminal feature-specific priming effects in this study provide important evidence for grounded cognition theory, which predicts differential processing of action and sound words in corresponding modality-specific brain systems: Firstly, polarity as well as topography of the scalp potentials to the unprimed action and sound word conditions, perfectly agree with previous ERP findings of visible action and sound word processing that were related to differential activation in motor and ...

Masked Priming of Conceptual Features Reveals Differential ...

Priming studies which assessed the longevity of subliminal influences usually reported that behavioral effects of

masked primes decay within 1 s (e.g. Forster et al., 1990; Ferrand, 1996; Greenwald et al., 1996). This suggests that subliminal information is not stored and thus cannot affect delayed decisions.

Subliminal messages exert long-term effects on decision ...

Examining the differential effects of arousing stimuli that are consciously, versus unconsciously perceived will improve our knowledge of neural circuitry involved in non-conscious perception. Here we conduct preliminary analyses of neural activation in studies that have used both subliminal and supraliminal presentation of the same stimulus.

Subliminal versus supraliminal stimuli activate neural ...

Our transcranial magnetic stimulation study has further demonstrated a differential effect of task on subliminal

priming (10). However, no previous work has examined the entire extent of the cerebral structures involved in unconscious word processing as a function of task context.
