Supersaturated - definition of supersaturated by The Free ...

Supersaturation occurs with a chemical solution when the concentration of a solute exceeds the concentration specified by the value equilibrium solubility. Most commonly the term is applied to a solution of a solid in a liquid. A supersaturated solution is in a metastable state; it may be brought to equilibrium by forcing the excess of solute to separate from the solution. The term can also be applied to a mixture of

gases.

Supersaturation - Wikipedia

Because the solution contains more dissolved solute than is predicted by the solubility limit, we say the solution is supersaturated. Rock candy is produced from a supersaturated solution of sugar.

Supersaturation

The definition of a supersaturated solution is one which contains more dissolved solute than could ordinarily dissolve into the solvent. A minor disturbance of the solution or introduction of a "seed" or tiny crystal of solute will force crystallization of excess solute.

Saturated Solution Definition and
