2010 Book of Lists

Good to Great

Why Some Companies Make the Leap...And Others Don't *Harper Collins*

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the

DNA of an enterprise from the verybeginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research

team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

Small Giants

Companies That Choose to Be Great Instead of Big, 10th-Anniversary Edition *Penguin*

How maverick companies have passed up the growth treadmill — and focused on greatness instead. It's an axiom of business that great companies grow their revenues and profits year after year. Yet quietly, under the radar, a small number of companies have rejected the pressure of endless growth to focus on more satisfying business goals. Goals like being great at what they do, creating a great place to work, providing great customer service, making great contributions to their communities, and finding great ways to lead their lives. In *Small Giants*, veteran journalist Bo Burlingham takes us deep inside fourteen remarkable companies that have chosen to march to their own drummer.

They include Anchor Brewing, the original microbrewer; CitiStorage Inc., the premier independent records-storage business; Clif Bar & Co., maker of organic energy bars and other nutrition foods; Righteous Babe Records, the record company founded by singer-songwriter Ani DiFranco; Union Square Hospitality Group, the company of restaurateur Danny Meyer; and Zingerman's Community of Businesses, including the world-famous Zingerman's Deli of Ann Arbor. Burlingham shows how the leaders of these small giants recognized the full range of choices they had about the type of company they could create. And he shows how we can all benefit by questioning the usual definitions of business success. In his new afterward, Burlingham reflects on the similarities and learning lessons from the small giants he covers in the book.

Firms of Endearment

How World-Class Companies Profit from Passion and Purpose *Pearson Prentice Hall*

Today's best companies get it. From Costco® to Commerce Bank, Wegmans to Whole Foods®: they're becoming the ultimate value creators. They're generating every form of value that matters: emotional, experiential, social, and financial. And they're doing it for all their stakeholders. Not because it's "politically correct": because it's the only path to long-term competitive advantage. These are the Firms of Endearment. Companies people love doing business with. Love partnering with. Love working for. Love investing in. Companies for whom "loyalty" isn't just real: it's palpable, and driving unbeatable advantages in everything from marketing to recruitment. You need to become one of those companies. This book will show you how. You'll find specific, practical guidance on transforming every relationship you have: with customers, associates, partners, investors, and society. If

you want to be great—truly great—this is your blueprint. We're entering an Age of Transcendence, as people increasingly search for higher meaning in their lives, not just more possessions. This is transforming the marketplace, the workplace, the very soul of capitalism. Increasingly, today's most successful companies are bringing love, joy, authenticity, empathy, and soulfulness into their businesses: they are delivering emotional, experiential, and social value—not just profits. Firms of Endearment illuminates this, the most fundamental transformation in capitalism since Adam Smith. It's not about "corporate social responsibility": it's about building companies that can sustain success in a radically new era. It's about great companies like IDEO and IKEA®, Commerce Bank and Costco®, Wegmans and Whole Foods®: how they earn the powerful loyalty and affection that enables truly breathtaking performance. This book is about gaining "share of heart," not just share of wallet. It's about aligning stakeholders' interests, not just juggling them. It's about building companies that leave the world a better place. Most of all, it's about why you must do all this, or risk being left in the dust... and how to get there from wherever you are now.

Exponential Organizations

Why new organizations are ten times better, faster, and cheaper than yours (and what to do about it) *Diversion Books*

Frost & Sullivan's 2014 Growth, Innovation, and Leadership Book of the Year "EXPONENTIAL ORGANIZATIONS should be required reading for anyone interested in the ways exponential technologies are reinventing best practices in business." —Ray Kurzweil, Director of Engineering at Google In business, performance is key. In performance, how you organize can be the key to growth. In the past five years, the business world has seen the birth of a new breed of company—the Exponential Organization—that has revolutionized how a company can accelerate its growth by using technology. An ExO can eliminate the incremental, linear way traditional companies get bigger, leveraging assets like community, big data, algorithms, and new technology into achieving performance benchmarks ten times better than its peers. Three luminaries of the business world—Salim Ismail, Yuri van Geest, and Mike Malone—have researched this phenomenon and documented ten characteristics of Exponential Organizations. Here, in EXPONENTIAL ORGANIZATIONS, they walk the reader through how any company, from a startup to a multi-national, can become an ExO, streamline its performance, and grow to the next level. "EXPONENTIAL ORGANIZATIONS is the most pivotal book in its class. Salim examines the future of organizations and offers readers his insights on the concept of Exponential Organizations, because he himself embodies the strategy, structure, culture, processes, and systems of this new breed of company." —John Hagel, The Center for the Edge Chosen by Benjamin Netanyahu, Prime Minister of Israel, to be one of Bloomberg's Best Books of 2015

The Everything Store

Jeff Bezos and the Age of Amazon *Little, Brown*

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

The Biotech Investor

How to Profit from the Coming Boom in Biotechnology *Times Books*

A sophisticated investor's practical tool kit for analyzing the science, business, opportunities, and risks in the century's most promising industry The world is entering a biotechnology boom—but only informed investors will prosper in the incredibly complex

biotech business. Separating the bioengineered wheat from the chaff, San Francisco Chronicle science and technology columnist Tom Abate, one of the top objective authorities on biotech, gives investors the analytical foundation to understand the science, finances, time horizon, and technological and commercial potential of this burgeoning industry. In *The Biotech Investor*, Abate provides sophisticated business analysis, guidelines for assessing company leadership, easy-to-digest reports from the labs, and indispensable investor tools and metrics. He explains how breaking news, medical conferences, U.S. Food and Drug Administration approvals, and the patent process affect investing strategies. Finally, he looks beyond medicine to review the financial opportunities presented by biotechnology advances in everything from agriculture to jean manufacturing, and shows investors how to identify "coattail" industries such as

instrumentation and software development that will benefit from biotech successes. *The Biotech Investor* is the comprehensive, expert source for successful and intelligent investing in one of the twenty-first century's most promising industries.
