In an infant/toddler center, a hammock invites a caregiver to cuddle one or two babies. The environment affects caregiver/parent relationships. A comfortable place for adults within the children's environment can encourage parents to visit throughout the day and can also be used to encourage continued breastfeeding with infants.

How to Care for Infants and Toddlers in Groups • ZERO TO THREE

This bond of affection between parents and children is necessary for a healthy parent-child relationship, and also extends to relationships between children, their siblings, and other family members (e.g., grandparents, aunts/uncles, etc) and caregivers. When infants attach successfully to their parents and caregivers,

they learn to trust that the outside world is a welcoming place and are more likely to explore and interact with their environment.

Parents and caregivers are essential to children's healthy

...

Stimulation: The caregiver arranges the environment to provide multiple opportunities for play, learning, engagement, and encouragement of infants and toddlers. The caregiver includes a range of developmentally appropriate materials in the care setting and intentionally uses opportunities to help toddlers learn to take turns engaging and playing with the materials.

...

Like little sponges, toddlers soak up everything, so memorization comes fairly easily. 5 They still need a lot of sleep and may take a nap or two during the day, as well as sleep 10 to 12 hours a night. By 3 years old, the average toddler has usually reached between 53% and 57% of their adult height.
