Just Enough**Software****Architecture: A Risk-Driven Approach ...**

Software architecture is a kind of software design, but design decisions influence the architecture and vice versa. What the best developers do is drill into obstacles in detail, understand them, then

pop up to relate the nature of those obstacles to the architecture as a whole.

Just Enough Software Architecture A Risk Driven Approach ...

Just enough architecture. The larger or more novel a product is, the more important is to define architecturally significant parts of the system and understand the risks, trade-offs, and solutions. The biggest technical risk

for most projects is the product's architecture. The architecture is where the biggest technical questions and unknowns live.

Just enough architecture - IBM Garage Practices

"Just Enough Software Architecture" gives specific and valuable evidence on the need and on the value of having appropriate architecture. Rather than the blind "document it all" attitude, it gives insight into how to decide what to architect and what to ignore. It's a very thoughtful and thought provoking look at the design process.
