I am starting this roundup with this printable solar system model. The nice think about this one is that after printing, it makes a fun cutting and putting together activity for the kids- a great way to show what planets are in the solar system plus which ones are closer or further from the sun and from the planet earth.

Printable Solar System Coloring Sheets for Kids!

There are things that can be done if you want your system to operate during a blackout. Because your solar system produces direct current (DC) energy something will need to convert it to the alternating current (AC) that is used inside homes. There are string inverters and micro-inverters that accomplish this task. The SMA SunnyBoy with Secure Power Supply (SPS) is a string inverter that does this AND features a plug-in option.
