Current curriculum models can be broken down into two broad categories—the product model and the process model. The product model is results-oriented. Grades are the prime objective, with the focus lying more on the finished product rather than on the learning process.

Curriculum Development and The 3 Models Explained | Top Hat

The curriculum, essentially, is a set of documents for implementation. Another way of looking at curriculum theory and practice is via process. In this sense curriculum is not a physical thing, but rather the interaction of teachers, students and knowledge.

What is curriculum? Exploring theory and practice - infed.org:

Process-based approaches to curriculum theory tend to be focused less on summative activity - the final grades, the end-point assessments, and the grading and achievements associated with them - than with the pathway which learners take though a course. For process-oriented thinkers, the journey is the chief concern, rather than the destination.
