An Institutional Theory Of Momentum

An Institutional Theory of Momentum and Reversal Dimitri Vayanos* LSE, CEPR and NBER Paul Woolley† LSE February 9, 2013‡ Abstract We propose a theory of momentum and reversal based on flows between investment funds. Flows are triggered by changes in fund managers' efficiency, which investors either observe directly or infer from past performance.

An Institutional Theory of

Momentum and Reversal

We propose a theory of momentum and reversal based on flows between investment funds. Flows are triggered by changes in fund managers' efficiency, which investors either observe directly or infer from past performance. Momentum arises if flows exhibit inertia, and because rational prices underreact to expected future flows.

Institutional Theory of Momentum and Reversal | The Review ...

Momentum is the tendency of assets with good (bad) recent performance to continue overperforming (underperforming) in the near future. Reversal concerns predictability based on a longer performance history: assets that performed well (poorly) over a long

period tend to subsequently underperform (overperform).

An Institutional Theory of Momentum and Reversal

An Institutional Theory of Momentum and Reversal Dimitri Vayanos, Paul Woolley. NBER Working Paper No. 14523 Issued in December 2008, Revised in December 2011 NBER Program(s): Asset Pricing. We propose a rational theory of momentum and reversal based on delegated portfolio management. An investor can hold assets through an index or an active fund.

An Institutional Theory of Momentum and Reversal

We propose a theory of momentum and reversal based on flows between

investment funds. Flows are triggered by changes in fund managers' efficiency, which investors either observe directly or infer from past performance. Momentum arises if flows exhibit inertia, and because rational prices underreact to expected future flows.

An Institutional Theory of Momentum and Reversal Dimitri Vayanos/ LSE, CEPR and NBER Paul Woolley LSE December 18, 2010z Abstract We propose a rational theory of momentum and reversal based on delegated portfolio management. Flows between investment funds are triggered by changes in fund managers' efficiency,

An Institutional Theory of Momentum and Reversal

We propose a rational theory of momentum and reversal based on delegated portfolio management. A competitive investor can invest through an index fund or an active fund run by a manager with unknown ability. Following a negative cashflow shock to assets held by the active fund, the investor updates negatively about the manager's ability and migrates to the index fund.

Basic theory of momentum strategies. Systematic momentum trading is a major alternative risk premium strategy across asset classes. Time series

momentum motivates trend following; cross section momentum gives rise to ‘winners-minus-losers strategies’. Trend following is a market directional strategy that promises ‘convex beta’ and ‘good diversification’ for outright long and carry portfolios as it normally performs well in protracted good and bad times alike.

An Institutional Theory of Momentum and Reversal. Dimitri Vayanos and Paul Woolley () . FMG Discussion Papers from Financial Markets Group. Abstract: We propose a rational theory of momentum and reversal based on delegated portfolio management. A competitive investor can invest through an index fund or an active fund run by a manager with unknown ability.

EconPapers: An Institutional Theory of Momentum and Reversal

Downloadable! We propose a rational theory of momentum and reversal based on delegated portfolio management. Flows between investment funds are triggered by changes in fund managers' efficiency, which investors either observe

directly or infer from past performance. Momentum arises if fund flows exhibit inertia, and because rational prices do not fully adjust to reflect future flows.

An institutional Theory of Momentum and Reversal

This is a theory paper that incorporates the realities of delegated asset

management to help explain why we would see momentum and reversals in asset prices. The main takeaway from the model is that momentum and reversal (i.e. value and momentum investing) can be caused by delegated asset management through the flow of funds.
