Word and World
Cambridge University Press

This important book proposes a new account of the nature of language, founded upon an original interpretation of Wittgenstein. The authors deny the existence of a direct referential relationship between words and things. Rather, the link between language and world is a two-stage one, in which meaning is used and in which a

natural language should be understood as fundamentally a collection of socially devised and maintained practices. Arguing against the philosophical mainstream descending from Frege and Russell to Quine, Davidson, Dummett, McDowell, Evans, Putnam, Kripke and others, the authors demonstrate that discarding the notion of reference does not entail relativism or semantic nihilism. A provocative re-examination of the interrelations of language and social practice, this book will interest not only philosophers of language but also linguists, psycholinguists, students of communication and all

those concerned with the nature and acquisition of human linguistic capacities.

Warriors of the Word *Birlinn*

Words have always held great power in the Gaelic traditions of the Scottish Highlands: bardic poems bought immortality for their subjects; satires threatened to ruin reputations and cause physical injury; clan sagas recounted family origins and struggles for power; incantations invoked blessings and curses. Even in the present, Gaels strive to counteract centuries of misrepresentation of the Highlands as a backwater of barbarism without a valid story of its own to tell. *Warriors of the Word* offers a broad overview of Scottish

Highland culture and history, bringing together rare and previously untranslated primary texts from scattered and obscure sources. Poetry, songs, tales, and proverbs, supplemented by the accounts of insiders and travellers, illuminate traditional ways of life, exploring such topics as folklore, music, dance, literature, social organisation, supernatural beliefs, human ecology, ethnic identity, and the role of language. This range of materials allows Scottish Gaeldom to be described on its own terms and to demonstrate its vitality and wealth of renewable cultural resources. This is an essential compendium for scholars, students, and all enthusiasts of

Scottish culture.

 One of GQ's 50

Best Books of Literary Journalism of the 21st Century Longlisted for the National Book Award Los Angeles Times, Best Nonfiction Gift One of President Obama's Favorite Books of 2021 This compelling #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves.

It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A

deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of

the hopeful role that memory and history can play in making sense of our country and how it has come to be.

Empires of the Word

Harper Collins

Nicholas Ostler's *Empires of the Word* is the first history of the world's great tongues, gloriously celebrating the wonder of words that binds communities together and makes possible both the living of a common history and the telling of it. From the uncanny resilience of Chinese through twenty centuries of invasions to the engaging self-regard of Greek and to the struggles that gave birth to the languages of modern Europe, these epic achievements and more are brilliantly

explored, as are the fascinating failures of once "universal" languages. A splendid, authoritative, and remarkable work, it demonstrates how the language history of the world eloquently reveals the real character of our planet's diverse peoples and prepares us for a linguistic future full of surprises.

Literacy *Routledge*

Freire and Macedo analyse the connection between literacy and politics according to whether it produces existing social relations, or introduces a new set of cultural practices that promote democratic and emancipatory change.

The Word Exchange

Anchor

A dystopian novel for the digital age, *The Word Exchange* offers an inventive, suspenseful, and decidedly original vision of the dangers of technology and of the enduring power of the printed word. In the not-so-distant future, the forecasted “death of print” has become a reality. Bookstores, libraries, newspapers, and magazines are things of the past, and we spend our time glued to handheld devices called Memes that not only keep us in constant communication but

also have become so intuitive that they hail us cabs before we leave our offices, order takeout at the first growl of a hungry stomach, and even create and sell language itself in a marketplace called the Word Exchange. Anana Johnson works with her father, Doug, at the North American Dictionary of the English Language (NADEL), where Doug is hard at work on the last edition that will ever be printed. Doug is a staunchly anti-Meme, anti-tech intellectual who fondly remembers the days when people used email (everything now is text or videoconference) to communicate—or even actually spoke to one another, for that matter. One evening,

Doug disappears from the NADEL offices, leaving a single written clue: ALICE. It's a code word he devised to signal if he ever fell into harm's way. And thus begins Anana's journey down the proverbial rabbit hole . . . Joined by Bart, her bookish NADEL colleague, Anana's search for Doug will take her into dark basements and subterranean passageways; the stacks and reading rooms of the Mercantile Library; and secret meetings of the underground resistance, the Diachronic Society. As Anana penetrates the mystery of her father's disappearance and a pandemic of decaying language called "word flu" spreads, *The Word Exchange* becomes a

cautionary tale that is at once a technological thriller and a meditation on the high cultural costs of digital technology.

The Word and the World *Springer*

While the peace-loving farmers labor endlessly to provide food for the City, the City Bosses rule the Shantih with an iron fist. When a group of farmers decide to form a new settlement further

away, the Bosses retaliate by threatening to crush the "rebellion." Luz understands what it means to have no choices. Her father is a Boss and he has ruled over her life with the same iron fist. The Lathe Of Heaven *Simon and Schuster*

A classic science fiction novel by Ursula K. Le Guin, one of the greatest writers of the genre, set in a future world where one man's

dreams control the fate of humanity. In a future world racked by violence and environmental catastrophes, George Orr wakes up one day to discover that his dreams have the ability to alter reality. He seeks help from Dr. William Haber, a psychiatrist who immediately grasps the power George wields. Soon George must preserve reality itself as Dr. Haber becomes adept at manipulating George's dreams for his own purposes. The Lathe of Heaven is an eerily prescient novel from award-winning author Ursula K. Le Guin that masterfully addresses the dangers of power and humanity's self-destructiveness, questioning the nature of reality itself. It is a

classic of the science fiction genre.

They *Simon and Schuster*

A dark, dystopian portrait of artists struggling to resist violent

suppression—"queer, English, a masterpiece." (Hilton Als) Set amid the rolling hills and the sandy shingle beaches of coastal Sussex, this disquieting novel depicts an England in which bland conformity is the terrifying order of the day. Violent gangs roam the country destroying art and culture and brutalizing those who resist the purge. As the menacing "They" creep ever closer, a loosely connected band of dissidents attempt to evade the chilling mobs, but it's only a

matter of time until their luck runs out. Winner of the 1977 South-East Arts Literature Prize, Kay Dick's *They* is an uncanny and prescient vision of a world hostile to beauty, emotion, and the individual.

The Dictionary of Lost Words *Ballantine Books*

NEW YORK TIMES BESTSELLER • REESE'S BOOK CLUB PICK • "Delightful . . . [a] captivating and slyly subversive fictional paean to the real women whose work on the Oxford English Dictionary went largely unheralded."—The New York Times Book Review "A marvelous fiction about the power of language to elevate or repress."—Geraldine Brooks, New York Times bestselling

author of *People of the Book* Esme is born into a world of words. Motherless and irrepressibly curious, she spends her childhood in the Scriptorium, an Oxford garden shed in which her father and a team of dedicated lexicographers are collecting words for the very first Oxford English Dictionary. Young Esme's place is beneath the sorting table, unseen and unheard. One day a slip of paper containing the word *bondmaid* flutters beneath the table. She rescues the slip and, learning that the word means "slave girl," begins to collect other words that have been discarded or neglected by the dictionary men. As she grows up, Esme realizes that words and

meanings relating to women's and common folks' experiences often go unrecorded. And so she begins in earnest to search out words for her own dictionary: the *Dictionary of Lost Words*. To do so she must leave the sheltered world of the university and venture out to meet the people whose words will fill those pages. Set during the height of the women's suffrage movement and with the Great War looming, *The Dictionary of Lost Words* reveals a lost narrative, hidden between the lines of a history written by men. Inspired by actual events, author Pip Williams has delved into the archives of the Oxford English Dictionary to tell this highly original story.

The Dictionary of Lost Words is a delightful, lyrical, and deeply thought-provoking celebration of words and the power of language to shape the world. WINNER OF THE AUSTRALIAN BOOK INDUSTRY AWARD

Five Ways to Forgiveness *Library of America*

Here for the first time is the complete suite of five linked stories from Ursula K. Le Guin's acclaimed Hainish series, which tells the history of the Ekumen, the galactic confederation of human colonies founded by the planet Hain. First published in 1995 as *Four Ways to Forgiveness*, and now joined by a fifth story, *Five Ways to Forgiveness* focuses on the twin planets Werel and Yeowe, two worlds whose peoples, long known as "owners" and "assets," together face an uncertain future after civil war and revolution. In "Betrayals" a retired science teacher must

make peace with her new neighbor, a disgraced revolutionary leader. In "Forgiveness Day," a female official from the Ekumen arrives to survey the situation on Werel and struggles against its rigidly patriarchal culture. Embedded within "A Man of the People," which describes the coming of age of Havzhiva, an Ekumen ambassador to Yeowe, is Le Guin's most sustained description of the Ur-planet Hain. "A Woman's Liberation" is the remarkable narrative of Rakam, born an asset on Werel, who must twice escape from slavery to freedom. Joined to them is "Old Music and the Slave Women," in which the charismatic Hainish embassy worker, who appears in

two of the four original stories, returns for a tale of his own. Of this capstone tale Le Guin has written, "the character called Old Music began to tell me a fifth tale about the latter days of the civil war . . . I'm glad to see it joined to the others at last."

Victory on Janus

Orientalism *Vintage*

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the

Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding.

Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

The Daily Show (The Book) *Grand Central Publishing*

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart,

as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama

and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

The Telling
HarperCollins

Sutty, an Observer from Earth for the interstellar Ekumen, has been assigned to a new world—a world in the grips of a stern monolithic state, the Corporation. Embracing the sophisticated technology brought by other worlds and desiring to advance even faster into the future, the Akans recently outlawed the past, the old calligraphy, certain

words, all ancient beliefs and ways; every citizen must now be a producer-consumer. Their state, not unlike the China of the Cultural Revolution, is one of secular terrorism. Traveling from city to small town, from loudspeakers to bleating cattle, Sutty discovers the remnants of a banned religion, a hidden culture. As she moves deeper into the countryside and the desolate mountains, she learns more about the Telling—the old faith of the Akans—and more about herself. With her intricate creation of an alien world, Ursula K. Le Guin compels us to reflect on our own recent history.

The Way and the Word *Yale University Press*

The rich civilizations of ancient China and Greece built sciences of comparable sophistication—each based on different foundations of concept, method, and organization. In this engrossing book, two world-renowned scholars compare the cosmology, science, and medicine of China and Greece between 400 B.C. and A.D. 200, casting new light not only on the two civilizations but also on the evolving character of science. Sir Geoffrey Lloyd and Nathan Sivin investigate the differences between the thinkers in the two civilizations: what motivated them, how they understood the cosmos and the human body, how they were educated, how they made a living, and whom they argued with and why. The authors' new method integrally compares social, political, and intellectual patterns and connections, demonstrating how all affected and were affected by ideas about cosmology and the physical world. They relate conceptual differences in China and Greece to the diverse ways that intellectuals in the two civilizations earned their living, interacted with fellow inquirers, and were involved with structures of authority. By A.D. 200 the distinctive scientific strengths of both China and Greece showed equal potential for theory and practice. Lloyd and Sivin argue that modern science evolved not out of the Greek tradition alone

but from the strengths of China, Greece, India, Islam, and other civilizations, which converged first in the Muslim world and then in Renaissance Europe.

Now in this stunning sequel, Carl Sagan completes his revolutionary journey through space and time.

The exploration and eventual settlement of other worlds is neither a fantasy nor luxury, insists Sagan, but rather a necessary condition for the survival of the human race.
