Being able to take perspective is critical to our relationship with our self and others. While this is not something typically talked about in behavior analysis recent advances in our understanding of perspective taking and the development of a sense of self allow us to understand complex behaviors such as taking things personally.

The self and perspective-taking: Relational framing and ...

Abstract. Although abundant research has documented positive interpersonal outcomes of perspective taking, a growing body of evidence indicates that perspective taking can also induce negative interpersonal outcomes—in other words, it backfires. We aim at integrating these seemingly contradictory findings, suggesting that perspective taking backfires when it causes the perspective-taking individual to feel threatened.
