Unlike most books on growing grapes for wine production the Grape Grower's Handbook is meant to be a stand-alone publication that describes all aspects of wine grape production. The book is written in a nontechnical format designed to be practical and well- suited for field application.

Grape Grower's Handbook: Wine Grape Growing

Grapes grow well at a soil pH between 5.0—6.0. Spacing: In a vineyard, most growers space grapes 8 feet apart in rows with eight feet between them; in even the most compact quarters, allow at least 3 feet between vines. Build your trellis before you

plant.

Gardening Grapes Growing Guide | GARDENS NURSERY

Indoor grapes will need careful watering, but outdoor-grown grapes will only need watering in severe and prolonged dry spells. Remove all flowers for the first two years after planting. Allow three bunches of grapes on three-year-old vines and about five on a four-year-old vine – slightly more if growing well. Allow full cropping thereafter.

How to grow grapes / RHS Gardening

Grapes are climbing vines with tendrils so will need support of a trellis, post and wires or do well against a sunny wall. There are varieties better for outdoor growing and also types for indoor greenhouse growing. They need plenty of sun to ripen the fruits. Pruning as a cordon trained vine increases yield and saves space.

Most commercial grape growers start the vine from grafted plants. However, in some countries that the soil is free from phylloxera, they may prefer autogenous plants. It is important not to plant a new vineyard in the same place an old one has been recently removed. The soil there will most probably be depleted and possibly infected.
