In many ways, sculpting is the opposite of modeling. Sculpting relies on a brush-based user interface. We don't interact with the actual mesh, instead we deform it with our brush tools. This makes sculpting extremely quick and intuitive. It is one of the most artistic feeling forms of CG art. This also means it is very fast – instead of selecting verts and moving them individually, like modeling, we are pushing our model around with a brush, making changes very quickly.
