Towards a New Standard

Theoretical and Empirical Studies on the Restandardization of Italian *Walter de Gruyter GmbH & Co KG*

In many European languages the National Standard Variety is converging with spoken, informal, and socially marked varieties. In Italian this process is giving rise to a new standard variety called Neo-standard Italian, which partly consists of regional features. This book contributes to current research on standardization in Europe by offering a comprehensive overview of the re-standardization dynamics in Italian. Each chapter investigates a specific dynamic shaping the emergence of Neo-

standard Italian and Regional Standard Varieties, such as the acceptance of previously non-standard features, the reception of Old Italian features excluded from the standard variety, the changing standard language ideology, the retention of features from Italo-Romance dialects, the standardization of patterns borrowed from English, and the developmental tendencies of standard Italian in Switzerland. The contributions investigate phonetic/phonological, prosodic, morphosyntactic, and lexical phenomena, addressed by several empirical methodologies and theoretical vantage points. This work is of interest to scholars and students working on language variation and change, especially those focusing on standard languages and standardization dynamics.

Rage *Simon and Schuster*

Rage is an unprecedented and intimate tour de force of new reporting on the Trump presidency facing a global pandemic, economic disaster and racial unrest. Woodward, the #1 international bestselling author of *Fear: Trump in the White House*, has uncovered the precise moment the president was warned that the Covid-19 epidemic would be the biggest national security threat to his presidency. In dramatic detail, Woodward takes readers into the Oval Office as Trump's head pops up when he is told in January 2020 that the pandemic could reach the scale of the 1918 Spanish Flu that killed 675,000 Americans. In 17 on-the-record interviews with Woodward over seven volatile months—an utterly vivid window into Trump's mind—the president provides a self-portrait that is part denial and part combative interchange mixed with surprising moments of doubt as he glimpses the perils in the presidency and what he calls the “dynamite behind every door.” At key decision points, *Rage* shows how Trump's responses to the crises of 2020 were rooted in the instincts, habits and style he developed during his first three years as president. Revisiting the earliest days of the Trump presidency, *Rage* reveals how Secretary of Defense James Mattis, Secretary of State Rex Tillerson and Director of National Intelligence Dan Coats struggled to keep the country safe as the president dismantled any semblance of collegial national security decision making. *Rage* draws from hundreds of hours of interviews with firsthand witnesses as well as participants' notes, emails, diaries, calendars and confidential documents. Woodward obtained 25 never-seen personal letters exchanged between Trump and North Korean leader Kim Jong Un, who describes the bond between the two leaders as out of a “fantasy film.” Trump

insists to Woodward he will triumph over Covid-19 and the economic calamity. "Don't worry about it, Bob. Okay?" Trump told the author in July. "Don't worry about it. We'll get to do another book. You'll find I was right."

Sinners in the Hands of an Angry God *Chapel Library*

Preached at Enfield, Connecticut on July 8, 1741, this is perhaps the greatest sermon ever preached in America—and is certainly among the most well known. Owing to its forthright dealing with God's wrath and His intense hatred of sin and the sinner, it is also one of the most controversial. Indeed, for more than three-quarters of the sermon Edwards lays down a relentless stream of the most vivid and horrifying descriptions of the danger facing unregenerate men. While it is difficult to read such graphic language, there is abundant hope in the sermon's conclusion. Edwards puts it this way, “And now you have an extraordinary opportunity, a day wherein Christ has thrown the door of mercy wide open and stands calling and crying with a loud voice to poor sinners.” While those who would rather ignore God's justice in favor of His mercy condemn Edwards and his sermon, those who were present and actually heard him preach that day reacted in a decidedly different manner. According to the diary of Reverend Stephen Williams who attended the sermon, “Before the sermon was done there was a great moaning and crying through the whole House, ‘what shall I do to be saved; oh, I am going to hell, etc.’” The diary goes on to indicate that Edwards had to interrupt his sermon and come down to minister to those who were under such awful conviction. And so, in spite of what the scoffers might think or say, “the amazing and astonishing power of God” was manifested among the people that day—with many falling not into the hands of an angry God, but into the arms of a mighty Savior.

The Discovery and Conquest of Peru *Duke University Press*

Dazzled by the sight of the vast treasure of gold and silver being unloaded at Seville's docks in 1537, a teenaged Pedro de Cieza de León vowed to join the Spanish effort in the New World, become an explorer, and write what would become the earliest historical account of the conquest of Peru. Available for the first time in English, this history of Peru is based largely on interviews with Cieza's conquistador compatriotes, as well as with Indian informants knowledgeable of the Incan past. Alexandra Parma Cook and Noble David Cook present this recently discovered third book of a four-part chronicle that provides the most thorough and definitive record of the birth of modern Andean America. It describes with unparalleled detail the exploration of the Pacific coast of South America led by Francisco Pizarro and Diego de Almagro, the imprisonment and death of the Inca Atahualpa, the Indian resistance, and the ultimate Spanish domination. Students and scholars of Latin American history and conquest narratives will welcome the publication of this volume.

Recently the world has shown great interest to the work of Grigori P. Grabovoi, head of the "International Program for health improvement of man". The method of health improvement

includes diagnostics, information processing, recovery process. Grigori P. Grabovoi puts into practice all work cycles, using his abilities of clairvoyance and remote information control. Digital diagnostics is performed in addition. Grigori P. Grabovoi says: "I see my mission not only in curing. I perform matter regeneration (recovery) regardless of the initial state. This proves irrationality of destruction, shows the technology of salvation, and implements the fundamental principles of the world's ecological safety". Since Grigori P. Grabovoi regenerates after natural death, cures the 4th stage of cancer and the 4th stage of AIDS, when many organs are also destroyed, he naturally heals from any disease. Thus, Grigori P. Grabovoi implements the principle of non-dying as a method of preventing the global catastrophe threatening the whole world. Recovery cycle can be performed remotely without distance limitations. The program includes both the elimination of man-made disasters that could lead to global catastrophes, as well as control of events that overcome critical conditions as a result.
