However, given the diversity of both subject matter and methodological approaches encompassed by qualitative research, such guidance is not always easily come by. Qualitative Educational Research in Action: Doing and Reflecting is a collection of ten first-hand accounts by educational researchers of qualitative inquiries they carried out. The subjects are diverse, taking in school restructuring, policy analysis, critical literacy, phenomenology and the student teacher relationship.

Revised on July 30, 2020. Qualitative research involves collecting and

analyzing non-numerical data (e.g., text, video, or audio) to understand concepts, opinions, or experiences. It can be used to gather in-depth insights into a problem or generate new ideas for research. Qualitative research is the opposite of quantitative research, which involves collecting and analyzing numerical data for statistical analysis.

### **What is Qualitative Research? | Methods & Examples**

Reflexivity has become a signal topic in contemporary discussions of qualitative research, especially in educational studies. It shows two general inflections in the literature. Positional reflexivity leads the analyst to examine place, biography, self, and other to understand how they shape the analytic exercise.
