Text Analysis At Different Levels

Text Analysis. Text analysis is the automated process of understanding and sorting unstructured text data with AI-powered machine learning to mine for valuable insights. Unstructured data (images, audio, video, and mostly text) differs from structured data (whole numbers, statistics, spreadsheets, and databases), in that it doesn't have a set format or organization.

Text Analysis: the only guide you'll ever need

Meaning can be gained from text by looking at four levels of meaning within the text: • Word level • Sentence level • Passage level • Story/ complete text level. To help students engage deeply with text and to get a more comprehensive understanding of the content, teachers should ask questions about a text at all four levels of meaning. The word level and sentence level are often the root of misunderstandings so it is key to ask questions at these levels to help facilitate a clearer ...
