The documents that are in place when an application is made or work carried out are the ones that will be used to determine compliance with the Building Regulations.

Archived Approved Documents | LABC

Before we go into the details, it is important to note that the approval process we have here is pretty simple in nature. Document uploaded/submitted by one user and then either approved or rejected by another. Step 1: Document uploaded/submitted by one user. Step 2: Document approved or

rejected by another user.

How to approve documents without building a workflow ...

Efficient and consistent An Approval workflow automatically routes the document or item, assigns review tasks and tracks their progress, and sends reminders and notifications when needed. The activity in a workflow can be monitored and adjusted from a central status page, and the history of events in a workflow run is maintained for 60 days after completion.

All about Approval workflows - SharePoint

If you click on "Approval" you can edit the behaviors of the workflow. in my case I edited the behavior of a single task: Inside of it I assigned the values to the corresponding columns: By using the default approval workflow I wasn't able to do the last step since the columns weren't available. I guess because it was the global workflow.
