Fundamental Virology

A new class is starting at virology blog: Virology 101. I began this blog in 2004, to give back what I've learned from studying viruses for 30+ years. I've

written many posts on basic virology, but they tend to disappear with time. To remedy this problem, I've collected all these posts with links back to

Virology 101

The free online Virology course will introduce you to the fundamentals of virology, and show you how viruses attach to and replicate within cells. Viruses are infectious particles which can only replicate inside the cells of a living organism. Most viruses are completely harmless to humans, however, others are highly infectious and even deadly.
