We eagerly await the arrival of the players for the production of the next volume Chemical Evolution: From Origins of Life to Modern Society. What might we find in this second volume? As the great chemist Isaac Asimov wrote in Omni (1983):

Chemical Evolution across Space & Time

3 □ The concept of evolutionary change is a fundamental thread linking the sciences. An evolutionary perspective can provide one framework for unifying and advancing the sciences and chemistry has made important contributions to our

understanding of evolution.

Chemical Evolution Across Space and Time:

In evolutionary biology, abiogenesis, or informally the origin of life (OoL), is the natural process by which life has arisen from non-living matter, such as simple organic compounds. While the details of this process are still unknown, the prevailing scientific hypothesis is that the transition from non-living to living entities was not a single event, but an evolutionary process of ...

Chemical evolution across space & time : from the Big Bang ...

To disclose the "secrets" of chemical evolution across space, the first step is the understanding of how small prebiotic species are formed and how the chemical complexity can further increase. This review indeed addresses the chemical evolution in space, focusing – in particular – on the role played by molecular spectroscopy and quantum-chemical computations.

A never-ending story in the sky: The secrets of chemical ...

Three day symposium "Chemical evolution I : Chemical change across space and time," held at the Spring 2007 American Chemical Society National Meeting, in Chicago, IL.

Chemical evolution across space & time : from Big Bang to ...

Species distribution models (SDMs) are numerical tools that combine observations of species occurrence or abundance with environmental estimates. They are used to gain ecological and evolutionary insights and to predict distributions across landscapes, sometimes requiring extrapolation in space and time. SDMs are now widely used across terrestrial, freshwater, and marine realms. Differences in ...

Species Distribution Models: Ecological

Explanation and ...

chemical evolution of interstellar dust in space shows that the dust contains the bulk of organic material in the universe. We follow

the photoprocessing of low temperature (10 K) mixtures of ices subjected to vacuum ultraviolet radiation in simulation of interstellar conditions.
