Spatial Data Infrastructure Development In

A spatial data infrastructure is a data infrastructure implementing a framework of geographic data, metadata, users and tools that are interactively connected in order to use spatial data in an efficient and flexible way. Another definition is "the technology, policies, standards, human resources, and related activities necessary to acquire, process, distribute, use, maintain, and preserve spatial data". A further definition is given in Kuhn: "An SDI is a coordinated series of agreements on tech
