One specific component of identity development is the development of a gender identity. Gender identity refers to whether people consider themselves to be primarily masculine, primarily feminine, or some combination of the two. Although often used interchangeably, the terms "gender" and "sex" do not refer to the same thing.

The Development of Gender Identity - Mental Help

Gender and development. Gender equality is considered a critical element in achieving Decent Work for All Women and Men, in order to effect social and institutional change that leads to sustainable development with equity and growth. Gender equality refers to equal rights, responsibilities and opportunities that all persons should enjoy, regardless of whether one is born male or female.

Gender and development - International Labour Organization

The Gender Related Development Index is an index designed to measure gender equality. GDI together with the Gender Empowerment Measure were introduced in 1995 in the Human Development Report written by the United Nations Development Program. The aim of these measurements was to add a gender-sensitive dimension to the Human Development Index. The first measurement that they created as a result was the Gender-related Development Index. The GDI is defined as a "distribution-sensitive measure that a
