horsepower engines (up to 3000 HP), and the fuels and lubricants sectors. Testing specificities for marine engines, ATVs and motorcycles, and other engines and powertrains are also available.

Engine and Powertrain Testing

A powertrain is a system of mechanical parts in a vehicle that first produces energy, then converts it in order to propel it, whether it be an automobile, boat or other machinery. The average person is most familiar with the powertrain of their car, which creates energy in the engine, which is transferred to the transmission.
