El Rey de la Habana

Ésta es la historia de un joven adolescente lanzado a las calles de La Habana de los años noventa. Una novela basada en hechos reales, escrita crudamente, sin aderezos ni adornos, en la mejor tradición del realismo sucio. Pedro Juan Gutiérrez continúa aquí su saga sobre la ciudad caribeña y su gente más pobre y marginal: mendigos, prostitutas, travestis, vendedores callejeros, pícaros, borrachos, los habitantes de un edificio abandonado y en ruinas, gente sin un centavo, con hambre, siempre al borde de la muerte. Una fauna terrible y apocalíptica. «Ésta es la voz de los sin voz», dice el autor acerca de sus personajes. «Los que tienen que arañar la tierra cada día para buscar algo de comer, no tienen tiempo ni energía para nada más. Su objetivo único es sobrevivir. Como sea. De cualquier modo. Ni ellos mismos saben por qué ni para qué. Se empecinan en sobrevivir un día más. Sólo eso.» A pesar de todo, el amor, el sexo y la ternura marcan las vidas de estos seres atormentados.

LAJSA Book Award Winner, 2017, Latin American Jewish Studies Association As Cuba industrialized in the nineteenth century, an epochal realignment of the social order occurred. In this period of change, two seemingly disparate, yet nevertheless intertwined, ideological forces appeared: anti-Semitism and abolitionism. As the antislavery movement became organized in Cuba, the argument grew that Jews participated in the African slave trade and in New World slavery, and that this participation gave Jews extraordinary influence in the new Cuban economy and culture. What was remarkable about this anti-Semitism was the decidedly small Jewish population on the island in this era. This form of anti-

Semitism, Silverstein reveals, sprang almost exclusively from mythological beliefs.

Community and Culture in Post-Soviet Cuba *Routledge*

Following the disintegration of the Soviet Union, the globalization of Cuban culture, along with the bankruptcy of the state, partly modified the terms of intellectual engagement. However, no significant change took place at the political level. In *Community and Culture in Post-Soviet Cuba*, De Ferrari looks into the extraordinary survival of the Revolution by focusing on the personal, political and aesthetic social pacts that determined the configuration of the socialist state. Through close critical readings of a representative set of contemporary Cuban novels and works of visual art, this book argues that ethics and gender, rather than ideology, account for the intellectuals' fidelity to the Revolution. *Community and Culture* does three things: it demonstrates that masculine sociality is the key to understanding the longevity of Cuba's socialist regime; it examines the sociology of cultural administration of intellectual labor in Cuba; and it maps the emergent ethical and aesthetic paradigms that allow Cuban intellectuals to envision alternative forms of community and civil society.

Constructing the Spanish Empire in Havana

State Slavery in Defense and Development, 1762-1835 *LSU Press*

Constructing the Spanish Empire in Havana examines the political economy surrounding the use of enslaved laborers in the capital of Spanish imperial Cuba from 1762 to 1835. In this first book-length exploration of state slavery on the island, Evelyn P. Jennings demonstrates that the Spanish state's policies and practices in the ownership and employment of enslaved workers after 1762 served as a bridge from an economy based on imperial service to a rapidly expanding plantation economy in the nineteenth century. The Spanish state had owned and exploited enslaved workers in Cuba since the early 1500s. After the humiliating yearlong British occupation of Havana beginning in 1762, however, the Spanish Crown redoubled its efforts to purchase and maintain thousands of royal slaves to prepare Havana for what officials believed would be the imminent renewal of war with England. Jennings shows that the composition of workforces assigned to public projects depended on the availability of enslaved workers in various interconnected labor markets within Cuba, within the Spanish empire, and in the Atlantic world. Moreover, the site of enslavement, the work required, and the importance of that work according to imperial priorities influenced the treatment and relative autonomy of those laborers as well as the likelihood they would achieve freedom. As plantation production for export purposes emerged as the most dynamic sector of Cuba's economy by 1810, the Atlantic networks used to obtain enslaved workers showed increasing strain. British abolitionism exerted additional pressure on the slave trade. To offset the loss of access to enslaved laborers, colonial officials expanded the state's authority to sentence deserters, vagrants, and fugitives, both enslaved and free, to labor in public works such as civil construction, road building, and the creation of Havana's defensive forts. State efforts in this area demonstrate the deep roots of state enslavement and forced labor in nineteenth-century Spanish colonialism and in capitalist development in the Atlantic world.

Constructing the Spanish Empire in Havana places the processes of building and sustaining the Spanish empire in the imperial hub of Havana in a comparative perspective with other sites of empire building in the Atlantic world. Furthermore, it considers the human costs of reproducing the Spanish empire in a major Caribbean port, the state's role in shaping the institution of slavery, and the experiences of enslaved and other coerced laborers both before and after the beginning of Cuba's sugar boom in the early nineteenth century.

Atlantic Transformations

Empire, Politics, and Slavery during the Nineteenth Century *SUNY Press*

Calls attention to the political, economic, and cultural interdependence and interaction of global and local forces shaping the Atlantic world of the nineteenth century. This book presents a new approach to nineteenth-century Atlantic history by extending the analytical perspective of the second slavery to questions of empire, colonialism, and slavery. With a focus on Latin America, Brazil, the Spanish Caribbean, and the United States, international scholars examine relations among empires, between empires and colonies, and within colonies as parts of processes of global economic and political restructuring. By treating metropolis-colony relations within the framework of the modern world-economy, the contributors call attention to the political, economic, and cultural interdependence and interaction of global and local forces shaping the Atlantic world. They reinterpret as specific local responses to global processes the conflicts between empires, within imperial relations, the formation of national states, the creation of new zones of agricultural production and the decline of old ones, and the emergence of liberal ideologies and institutions. Dale W. Tomich is Professor of Sociology at Binghamton University, State University of New York. He is the author of *Slavery in the Circuit of Sugar, Second Edition: Martinique and the World-Economy, 1830-1848* and the editor of *The Politics of the Second Slavery, 1830-1848* and both also published by SUNY Press.
