From Harvey River *McClelland & Stewart*

“Throughout her life my mother, Doris, lived in two places at once: Kingston, Jamaica, where she raised a family of nine children, and Harvey River, in the parish of Hanover, where she was born and grew up.” When Doris Harvey’s English grandfather, William Harvey, discovers a clearing at the end of a path cut by the feet of those running from slavery, he gives his name to what will become his family’s home for generations. For Doris, Harvey River

is the place she always called home, the place where she was one of the “fabulous Harvey girls,” and where the rich local bounty of Lucea yams, pimentos, and mangoes went hand in hand with the Victorian niceties of her parents’ house. It is a place she will return to in dreams when her fortunes change, years later, and she and her husband, Marcus Goodison, relocate to “hard life” Kingston and encounter the harsh realities of urban living in close quarters. In Lorna Goodison’s spellbinding memoir of her forebears, we meet a cast of wonderfully drawn characters, including George O'Brian Wilson, the Irish patriarch of the family who married a Guinea woman after coming to Jamaica in the mid-1800s; Doris's parents, Margaret and David, childhood sweethearts who became the first family of Harvey River; and their eight children, Cleodine, straight-backed and imperious; serious Albertha, called “Miss Jo” because she was missing all sense of joviality; beautiful Howard, who dies an early death; Rose, whose loveliness inspires devotion but whose own heart is never fulfilled; taxi-man Edmund, who yearns for the freedoms of the big city; Flavius, who spends his life searching for the true church of God; large-hearted, practical-minded Doris, whose bottomless cooking pot often feeds more than just her family; and vivacious, hard-headed Ann, whose gift of reading hair tells her the future. In lush, vivid prose, textured with the cadences of Creole speech, Lorna Goodison weaves together memory and mythology to create a vivid tapestry. She takes us deep into the heart of a complete world to tell a universal story of family and the ties that bind us to the place we call home.

The linked stories in Cara Blue Adams’s precise and observant collection offer elegantly constructed glimpses of the life of Kate, a young woman from rural New England, moving between her childhood in the countryside of Vermont and her twenties and thirties in the northeast, southwest, and South in pursuit of a vocation, first as a research scientist and later as a writer. Place is a palpable presence: Boston in winter, Maine in summer, Virginia’s lush hillsides, the open New Mexico sky. Along the way, we meet Kate’s difficult bohemian mother and younger sister, her privileged college roommate, and the various men Kate dates as she struggles to define what she wants from the world on her own terms. Wryly funny and shot through with surprising flashes of anger, these smart, dreamy, searching stories show us a young woman grappling with social class, gender, ambition, violence, and the distance between longing and having.

Philip K. Dick Omnibus

Philip Kindred Dick, born December 16, 1928, in Chicago, Illinois, and died March 2, 1982, in Santa Ana, California, was an American science fiction writer of novels, short stories, and science fiction essays that explored philosophical, social, and political themes. During his lifetime, he received several literary prizes, such as the Hugo Award for the novel The Man in the High Castle, and the John Wood Campbell Memorial Award for the novel Flow My Tears, the Policeman Said. Philip K. Dick spent most of his career in near-poverty, but his contribution to science fiction is momentous, and some of his works have been adapted into movies to become cult films: Blade Runner, Total Recall, Minority Report, A Scanner Darkly ... In 2007, Philip K. Dick became the first science fiction writer to be included in The Library of America series.Supported by his wife, he began in 1952 a career as a professional writer; his beginnings were ignored by the literary world, which looked with caution at this author whose scientific concepts were rather odd and the style far from flawless. But his short stories, like Beyond Lies the Wub, Mr. Spaceship, Second Variety, to name only the best known, were well received by readers of Fantasy & Science Fiction magazines; this Philip K. Dick Omnibus (Illustrated with 48 original illustrations by Robert Schoolcraft) showcases ten of his early stories for your reading pleasure.
