How to Live Safely in a Science Fictional Universe *Atlantic Books Ltd*

With only TAMMY - a slightly tearful computer with self-esteem issues - a software boss called Phil - Microsoft Middle Manager 3.0 - and an imaginary dog called Ed for company, fixing time machines is a lonely business and Charles Yu is stuck in a rut. He's spent the better part of a decade navel-gazing, spying on 39 different versions of himself in alternate universes (and discovered that 35 of them are total jerks). And he's kind of fallen in love with TAMMY, which is bad because she doesn't have a module for that. With all that's on his mind, perhaps it's no surprise that when he meets his future self, he shoots him in the stomach. And that's a beginner's mistake for a time machine repairman. Now he's stuck in a time loop, going in circles forever. All he has, wrapped in brown paper, is the book his future self was trying to press into his hands. It's called How to Live Safely in a Science Fictional Universe. And he's the author. And somewhere inside it is the information that could save him.

How to Live Dangerously

The Hazards of Helmets, the Benefits of Bacteria, and the Risks of Living Too Safe *St. Martin's Griffin*

Afraid of flying? Forty percent of Americans are. Yet you'd have to fly every day for the next 26,000 years to assure yourself of dying in a crash. A leisurely canoe ride is more than 100 times deadlier. Think city streets are unsafe? You're more likely to come to harm in your own home, where every year you stand a 1 in 650 chance of being injured by your bed, mattress, or pillows—and each year 800 Americans die in accidents involving soft furnishings. We live in a world governed by fear, where packets of peanuts "may contain nuts" and children must be ever on the alert to "stranger danger." And yet, life expectancy has never been higher. Crime rates have plunged. Even unintentional injuries are down. So if we're so safe, why are we so afraid? How to Live Dangerously is a hilarious, straight-talking look at the things that terrify us. It considers life's real risks, not to mention the often ridiculous methods we've contrived to keep ourselves "safe." It encourages you to ignore fearmongers and embrace a new kind of freedom, in which we all worry a little less—and live a whole lot more.

Kids Need to Be Safe

A Book for Children in Foster Care *Free Spirit Publishing*

"Kids are important... They need safe places to live, and safe places to play." For some kids, this means living with foster parents. In simple words and full-color illustrations, this book explains why some kids move to foster homes, what foster parents do, and ways kids might feel during foster care. Children often believe that they are in foster care because they are "bad." This book makes it clear that the troubles in their lives are not their fault; the message throughout is one of hope and support. Includes resources and information for parents, foster parents, social workers, counselors, and teachers.

Living a Safe Universe

A Book for Seth Readers

Seth, channeled by Jane Roberts, tells us, "You live in a safe universe." He also reminds us we create our own realities through our mental acts. Which means while we live in a safe universe, we don't always live a safe universe, because we don't always safely create within it. What does it take to live a safe universe? There is only one answer—Trust. After years of focused effort, Lynda Madden Dahl, award-winning author of five Seth-based books and co-founder of Seth Network International, found a path within the material—not obvious at first, but there nonetheless—that resolves all trust issues, if one is but willing to try. "Lynda takes the reader deep into the heart of Seth's teachings, and one emerges with a new vision and understanding of concepts that will transform one's personal world, and thus the world in general. Highly recommended for all Seth readers who wish to take Seth's material to a whole new level." — Rich Kendall, author of The Road to Elmira, member of Jane Roberts' ESP Class "I love this book. Living a Safe Universe brings us to a new understanding of the Seth material, and how to apply this understanding to trust. Lynda drives home the point that we are primarily consciousness which exists in the spacious present, as opposed to being an ego in time, and then explains why that fact changes the playing field entirely." — Lawrence Davidson, member of Jane Roberts' ESP class, founder of California Seth Conference

Interior Chinatown *Pantheon*

Willis Wu doesn't perceive himself as a protagonist even in his own life: He's merely Generic Asian man. Sometimes he gets to be Background Oriental Making a Weird Face or even Disgraced Son, but he is always relegated to a prop. Yet every day he leaves his tiny room in a Chinatown SRO and enters the Golden Palace restaurant, where Black and White, a procedural cop show, is in perpetual production. He's a bit player here, too, but he dreams of being Kung Fu Guy--the most respected old that anyone who looks like him can attain. At least that's what he has been told, time and time again. Except by one person, his mother. Who says to him: Be more. Playful but heartfelt, a send-up of Hollywood tropes and Asian stereotypes, Interior Chinatown is Charles Yu's most moving, daring, and masterly novel yet.

Beyond the Sand and Sea

One Family's Quest for a Country to Call Home *St. Martin's Press*

From Ty McCormick, winner of the Robert F. Kennedy Journalism Award, an epic and timeless story of a family in search of safety, security, and a place to call home. When Asad Hussein was growing up in the world's largest refugee camp, nearly every aspect of life revolved around getting to America—a distant land where anything was possible. Thousands of displaced families like his were whisked away to the United States in the mid-2000s, leaving the dusty encampment in northeastern Kenya for new lives in suburban America. When Asad was nine, his older sister Maryan was resettled in Arizona, but Asad, his parents, and his other siblings were left behind. In the years they waited to join her, Asad found refuge in dog-eared novels donated by American charities, many of them

written by immigrants who had come to the United States from poor and war-torn countries. Maryan nourished his dreams of someday writing such novels, but it would be another fourteen years before he set foot in America. The story of Asad, Maryan, and their family's escape from Dadaab refugee camp is one of perseverance in the face of overwhelming adversity. It is also a story of happenstance, of long odds and impossibly good luck, and of uncommon generosity. In a world where too many young men are forced to make dangerous sea crossings in search of work, are recruited into extremist groups, and die at the hands of brutal security forces, Asad not only made it to the United States to join Maryan, but won a scholarship to study literature at Princeton—the first person born in Dadaab ever admitted to the prestigious university. Beyond the Sand and Sea is an extraordinary and inspiring book for anyone searching for pinpricks of light in the darkness. Meticulously reported over three years, it reveals the strength of a family of Somali refugees who never lost faith in America—and exposes the broken refugee resettlement system that kept that family trapped for more than two decades and has turned millions into permanent exiles.

Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Third Class Superhero *HMH*

"A compulsively readable collection" of short fiction from the author of How to Live Safely in a Science Fictional Universe (Publishers Weekly). With deadpan humor and originality, Charles Yu spins Kafkaesque tales of modern identity and insecurity in this whip-smart debut. In 401(k), a couple living in the Luxury Car Commercial subdivision are disappointed when their exotic vacation turns into a Life Insurance/Asset Management pitch. The author struggles to write the definitive biography of his mother in Autobiographical Raw Material Unsuitable for the Mining of Fiction. And would-be superhero Moisture Man must come to terms with the darkness in his heart. Throughout the collection, Yu's characters run up against the limitations of their artificial story lines while tackling the terrifying aspects of existence: mothers, jobs, spouses, and perhaps most terrifying of all, the need to express feelings. Heartbreaking and hilarious, Third Class Superhero marked the debut of an author who has been a PEN award finalist, and whose novel How to Live Safely in a Science Fictional Universe was named one of Time's best books of the year. "The post-collegiate braininess of many of Yu's stories is like the music of the Talking Heads, making the familiar seem off-kilter. . . . Takes a Kafkaesque turn in its comic examination of the essence of identity." —Kirkus Reviews

Be Safe, Love Mom

A Military Mom's Stories of Courage, Comfort, and Surviving Life on the Home Front *Public Affairs*

When you enlist in the United States military, you don't just sign up for duty; you also commit your loved ones to lives of service all their own. No one knows this better than Elaine Brye, an "Army brat" turned military wife and the mother of four officers—one each in the Army, Navy, Air Force, and Marine Corps. For more than a decade she's endured countless teary goodbyes, empty chairs at Thanksgiving dinners, and sleepless hours waiting for phone calls in the night. She's navigated the complicated tangle of emotions—pride, worry, fear, hope, and deep, enduring love—that are part and parcel of life as a military mother. In Be Safe, Love Mom Elaine braids together her own personal experiences with those of fellow parents she's met along the way. She offers gentle guidance and hard-earned wisdom on topics ranging from that first anxious goodbye to surrendering all control of your child, from finding comfort in the support of the military community and the healing power of faith to coping with the enormous sacrifices life as a military mother requires. Readers looking for encouragement and hard-to-come-by information as they travel the challenging road of having a child in uniform will find Elaine a wise and trusted friend, and Be Safe, Love Mom an essential handbook to membership in a strong and special sisterhood.

The Life You Can Save

Acting Now to End World Poverty Random House

For the first time in history, eradicating world poverty is within our reach. Yet around the world, a billion people struggle to live each day on less than many of us pay for bottled water. In *The Life You Can Save*, Peter Singer uses ethical arguments, illuminating examples, and case studies of charitable giving to show that our current response to world poverty is not only insufficient but morally indefensible. *The Life You Can Save* teaches us to be a part of the solution, helping others as we help ourselves.

Killing Christians

Living the Faith Where It's Not Safe to Believe Thomas Nelson

Could you retain your faith even if it meant losing your life? Your family’s lives? To many Christians in the Middle East today, a “momentary, light affliction” means enduring only torture instead of martyrdom. The depth of oppression Jesus followers suffer is unimaginable to most Western Christians. Yet, it is an everyday reality for those who choose faith over survival in Syria, Iran, Egypt, Lebanon, and other countries hostile to the Gospel of Christ. In *Killing Christians*, Tom Doyle takes readers to the secret meetings, the torture rooms, the grim prisons, and even the executions that are the “calling” of countless Muslims-turned-Christians. Each survivor longs to share with brothers and sisters “on the outside” what Christ has taught them. *Killing Christians* is their message to readers who still enjoy freedom to practice their faith. None would wish their pain and suffering on those who do not have to brave such misery, but the richness gained through their remarkable trials are delivered—often in their own words—through this book. The stories are breathtaking, the lessons soul-stirring and renewing. *Killing Christians* presents the dead serious work of expanding and maintaining the Faith.

Dear Friend, from My Life I Write to You in Your Life Random House

In her first memoir, award-winning novelist Yiyun Li offers a journey of recovery through literature: a letter from a writer to like-minded readers. “A meditation on the fact that literature itself lives and gives life.”—Marilynne Robinson, author of *Gilead* “What a long way it is from one life to another, yet why write if not for that distance?” Startlingly original and shining with quiet wisdom, this is a luminous account of a life lived with books. Written over two years while the author battled suicidal depression, *Dear Friend, from My Life I Write to You in Your Life* is a painful and yet richly affirming examination of what makes life worth living. Yiyun Li grew up in China and has spent her adult life as an immigrant in a country not her own. She has been a scientist, an author, a mother, a daughter—and through it all she has been sustained by a profound connection with the writers and books she loves. From William Trevor and Katherine Mansfield to Søren Kierkegaard and Philip Larkin, *Dear Friend* is a journey through the deepest themes that bind these writers together. Interweaving personal experiences with a wide-ranging homage to her most cherished literary influences, Yiyun Li confronts the two most essential questions of her identity: Why write? And why live? Praise for *Dear Friend, from My Life I Write to You in Your Life* “Li has stared in the face of much that is beautiful and ugly and treacherous and illuminating—and from her experience she has produced a nourishing exploration of the will to live willfully.”—The Washington Post “Li’s transformation into a writer . . . is nothing short of astonishing.”—The New York Times Book Review “An arrestingly lucid, intellectually vital series of contemplations on art, identity, and depression.”—The Boston Globe “Li is an exemplary storyteller and this account of her journey back to equilibrium, assisted by her closest companion, literature, is as powerful as any of her award-winning fiction, with the dark fixture of her Beijing past at its centre.”—Financial Times “Every writer is a reader first, and *Dear Friend* is Li’s haunted, luminous love letter to the words that shaped her. . . . Her own prose is both lovely and opaque, fitfully illuminating a radiant landscape of the personal and profound.”—Entertainment Weekly “Yiyun Li’s prose is lean and intense, and her ideas about books and writing are wholly original.”—San Francisco Chronicle

Despite what the news and social media would have you believe, we have never lived in a safer time than we are now. Unfortunately, we live under a false sense of security enforced by authorities that only alleviates fears without reducing risk. We have placed our personal safety, and our responsibilities of guarding it, into the hands of people trained only to respond to crises, not actively prevent them. Our blind faith in institutions to protect us has only dulled our natural survival instincts. The truth is that when we feel

safest is actually when we are in the most danger. This is the paradox of The Safety Trap. When you don't expect danger, you simply fail to see the signs that something bad is about to happen. But the signs are always there, and staying safe is about training yourself to see them. In easy-to-implement methods of maintaining vigilance, assessing risk, and taking preventative measures, you'll discover how to be alert without anxiety and know how to best protect and defend yourself on the job, in school, in public places, at home, and online. With Coursen's simple formula of Awareness + Preparation = Safety as your guide—as well as real world examples of managing threats—you will learn how to develop the skills and confidence to reclaim your own security and avoid The Safety Trap.

The Force

living safely in a world of electromagnetic pollution *Scribe*
Technology infiltrates our lives so rapidly that few of us stop to consider the potential health implications. Yet could the technology designed to improve our lives actually be making us sick? Scientists have long believed that there is a link between health problems and radiation from mobile phones, wireless connections, powerlines, and electronic devices. Radiation has been linked to issues such as depression, fatigue, miscarriages, childhood leukaemia, and even brain tumours. In The Force, Lyn McLean shows us why electropollution is among the most important health issues of our time. Examining research from around the world, she explains how and why we are all at risk and offers practical, easy-to-understand advice for homeowners, parents, and employees wanting to reduce their exposure at home and in the workplace. This edition includes developments from 2011 to 2015.

Not Safe

Discovering God's Dangerous Plan for Your Life *Zondervan*
There is nothing more thrilling in life then to allow Jesus to make us dangerous. Based on his bestselling book, All In, Mark Batterson, challenges the mistaken beliefs that God wants to send us to safe places to do easy things; that faithfulness is holding the fort; that playing it safe is safe; that there is any greater privilege than sacrifice; and that radical is anything but normal. Instead, Batterson maintains that Jesus did not die to keep us safe. He died to make us dangerous. Here is a challenge to go all in and all out by fully surrendering your life to daring plan God has for you. The message of Not Safe is simple: If Jesus is not Lord of all then Jesus is not lord at all. It's all or nothing. Now or never. Not safe or safe.

The Nazis Next Door

How America Became a Safe Haven for Hitler's Men *HMH*
A Newsweek Best Book of the Year: "Captivating . . . rooted in first-rate research" (The New York Times Book Review). In this New York Times bestseller, once-secret government records and interviews tell the full story of the thousands of Nazis—from concentration camp guards to high-level officers in the Third Reich—who came to the United States after World War II and quietly settled into new lives. Many gained entry on their own as self-styled war "refugees." But some had help from the US government. The CIA, the FBI, and the military all put Hitler's minions to work as spies, intelligence assets, and leading scientists and engineers, whitewashing their histories. Only years after their arrival did private sleuths and government prosecutors begin trying to identify the hidden Nazis. Now, relying on a trove of newly disclosed documents and scores of interviews, Pulitzer Prize-winning investigative reporter Eric Lichtblau reveals this little-known and "disturbing" chapter of postwar history (Salon).
