Programmed Visions: Software and Memory by Wendy Hui Kyong ...

Wendy Hui Kyong Chun, who has studied both systems design and English literature, is Professor of Modern Culture and Media at Brown University. She is the author of *Control and Freedom: Power and Paranoia in the Age of Fiber Optics* and *Programmed Visions: Software and Memory*, both published by the MIT Press.

Programmed Visions | The MIT Press

The final chapter of *Programmed Visions*, “Always Already There, or Software as Memory,” functions persuasively as a refining gesture, elaborating on a trope running throughout the book, namely that memory is not the same as storage. This distinction is important to Chun because “memory is not a static but rather an active process.

Wendy Hui Kyong Chun, Programmed Visions: Software and Memory

An *Programmed Visions Software and Memory Software Studies* software (language China and Hong Kong and Taiwan for the software, in English: Software) is a series of organizations in a particular order set of computer data and instructions. In general, the software is divided into a programming language, system software, application software and middleware in between.

An Programmed Visions Software and Memory Studies ...

These programmed visions have also made computers, based on metaphor, metaphors for metaphor itself, for a general logic of substitutability. Chun argues that the clarity offered by software as metaphor should make us pause, because software also engenders a profound sense of ignorance: who knows what lurks behind our smiling interfaces, behind the objects we click and manipulate?
