This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim

dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. Preceded by *The eye* / John V. Forrester ... [et al.]. 3rd ed. 2008.

Eye Of The Day *Harper Collins*

From a writer *The Globe and Mail* described as "Leonard Cohen's spiritual daughter." When a brutal explosion in a cottage town in Vermont brings together Amos, a disfigured handyman, and Aubrey, the cosseted son of a wealthy New England family, neither has any idea that this event will

shape them forever. As their lives touch again over the years, these unlikely friends forge a bond that survives war and peace, love and loss. Dennison Smith seamlessly weaves together the lives of the silent Amos and the motherless Aubrey—from '30s Vermont, where Aubrey photographs a naked Greta Garbo as she swims in an icy lake; to Princeton, where Albert Einstein is a friend and neighbour; to pre-revolutionary Havana and the remote oil fields of Alberta--before they meet again in the Italian Alps in the last days of the Second World War. There, one man will save the life of the other and transform his own; and with the young Inuit woman, Kona, he will start a new life.

Blending the personal with the historical, this is a remarkable coming-of-age story in which "life in all its passions, prejudices and precariousness overflows from every page" (Henry Sutton).

That understanding transformed the way he saw himself—and the world. A born storyteller, Robison has written a moving, darkly funny memoir about a life that has taken him from developing exploding guitars for KISS to building a family of his own. It’s a strange, sly, indelible account—sometimes alien yet always deeply human.

The Eye of the Elephant

An Epic Adventure in the African Wilderness *HMH*

An “exciting” true

account of battling the elephant poachers of Zambia by the author of *Where the Crawdads Sing* and her fellow biologist (The Boston Globe). Intelligent, majestic, and loyal, with lifespans matching our own, elephants are among the greatest of the wonders gracing the African wilds. Yet, in the 1970s and 1980s, about a thousand of these captivating creatures were slaughtered in Zambia each year, killed for their valuable ivory tusks. When biologists Mark and Delia Owens, residing in Africa to study lions, found themselves in the middle of a poaching fray, they took the only side they morally could: that of the elephants. From the authors of *Secrets of*

the Savanna, The Eye of the Elephant is “part adventure story, part wildlife tale,” recounting the Owens’s struggle to save these innocent animals from decimation, a journey not only to supply the natives with ways of supporting their villages, but also to cultivate support around the globe for the protection of elephants (The Boston Globe). Filled with daring exploits among disgruntled hunters, arduous labor on the African plains, and vivid depictions of various wildlife, this remarkable tale is at once an adventure story, a travelogue, a preservationist call to action, and a fascinating examination of both human and animal nature.

This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. Hawkins first wrote about in his best-selling book, *Power vs. Force*. With the Map, Dr. David R. Hawkins laid out the entire spectrum of consciousness, from the lower levels of Shame, Guilt, Apathy, Fear, Anger, and Pride; to Courage, Acceptance, and Reason; all the way up to the more expanded levels of Love, Ecstasy, Peace, and Enlightenment. These "higher" energy fields are a carrier wave of immense life energy.

An essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields, *The Map of Consciousness Explained* offers readers an introduction and deeper understanding of the Map, with visual charts and practical applications to help them heal, recover, and evolve to higher levels of consciousness and energy. This book is a light unto the path of any individual who wants to become more effective in any area of life.
