Review of the Nikon N75 by Thom Hogan. Besides being lighter in weight, the N75 is a bit smaller than the N80. Amazingly, while putting in a few more features and retaining the N65's features, the N75 manages to shave a few tenths of an ounce off the weight (it uses the N55 body form, which is slightly smaller).

Nathan, how often do you shoot in manual mode. N80 has two command dials, one is always whutter, the other always aperture, and you use both in manual mode, so it's very convenient. N75 has a single command dial. In manual mode, you have to work a button that sets the command dial to control either shutter or aperture, as needed.
