For several days before the Dark Day, the Sun as viewed from New England appeared to be red, and the sky appeared yellow. While the darkness was present, soot was observed to have

collected in rivers and in rain water, suggesting the presence of smoke. Also, when the night really came in, observers saw the Moon colored red. For portions of New England, the morning of May 19, 1780, was characterized by rain, indicating that cloud cover was present.
