Refrigeration And Air Conditioning With

In this article, Airedale Cooling Services will talk you through the basics of refrigeration, air

conditioning and how the two differ from each other. Hopefully, this guide will provide you with insight as to which service you require based on your needs. How refrigeration works. Refrigeration is designed to cool an immediate area.

What is the difference between Air Conditioning ...

Air conditioners work in the same way as refrigerators. The primary difference between an air conditioner and a refrigerator is that air conditioners are not only concerned with maintaining the temperature of the air; they also help to regulate humidity and filter the air. Air conditioners also consist of fans in order to circulate air, so that the hot air comes into contact with the evaporator at a faster rate.
