A Timeline of Airport Security History 1955: After the first attack on a US airplane in by Jack Graham security still did not take precautions to safety and security on commercial airlines....

A Timeline of Airport Security History - Airport Security ...

The operational areas of civil airfields were enclosed by security fences, with manned access gates and visual surveillance of much of the areas by closed-circuit television. In 2001, the September 11 attacks produced a sea change in much of the thinking surrounding airport security. In a period of two hours, a single terrorist organization wreaked an unprecedented level of destruction in the United States by using hijacked airliners as missiles.

Airport - Airport security | Britannica

Airport security refers to the techniques and methods used in an attempt to protect passengers, staff, aircraft, and airport property from accidental/malicious harm, crime, terrorism, and other threats. Aviation security is a combination of human and material resources to safeguard civil aviation against unlawful interference. Unlawful interference could be acts of terrorism, sabotage, threat to life and property, communication of false threat, bombing, etc.
