Sovereignty And Jurisdiction In Airspace

The issue of sovereignty lies at the very heart of international aviation because all aviation relations are built upon it. The purpose of this paper is to discuss the spectacular evolution of the concept of sovereignty in the air by adopting a multifaceted approach to this issue. In the first part the concept of sovereignty under general international law is briefly explained, before defining it in the more specific framework of public international air law.

... These criteria would determine where in spatial terms the

exclusive sovereignty of airspace ends and where outer space, the province of all mankind begins, and contribute to the jurisprudence of territorial sovereignty and jurisdiction"--', ""The issues surrounding sovereignty and jurisdiction are likely to become ever more pressing as globalisation, growing pressure on resources and the need for energy and national security become acute, and the resolution of special delimitation disputes ...

Sovereignty and jurisdiction in the airspace and outer ...

Airspace Sovereignty. A basic principle of international air law is that every state has complete and exclusive sovereignty over the airspace above its territory, including its territorial sea. At the turn of the 20th century the view that airspace, like the high seas, should be free was sometimes advanced. But the principle of airspace sovereignty was unequivocally affirmed in the Paris Convention on the Regulation of Aerial Navigation (1919) and subsequently by various other multilateral ...

Air law | Britannica

Airspace is the portion of the atmosphere controlled by a country above its territory, including its territorial waters or, more generally, any specific three-dimensional portion of the atmosphere. It is not the same as aerospace, which is the general term for Earth's atmosphere and the outer space in its vicinity. Within the United States: Controlled airspace exists where it is deemed necessary that air traffic control has some form of positive executive control over aircraft flying in that air
