Efficiency of Racetrack Betting Markets (Economic Theory ...

A number of empirical studies on the efficiency of racetrack betting market have shown the ‘favourite-longshot bias,’ which means longshots are overbet while favourites are underbet. Asian markets such as Hong Kong and Japan, however, have produced some contradictory empirical evidence to the bias. One critical element in the efficiency test procedure is how to assess the unobservable objective winning probability of a horse in a race.

betting "market" is efficient with respect to track odds and handicappers' picks of winning horses. By fitting a logit model with horses' win-loss records representing the dependent variable and track odds and handicappers' picks the inde-pendent variables, it is shown by likelihood ratio Do market inefficien-cies in racetrack bet-ting permit profitable

Market Efficiency in Racetrack Betting

betting interest in a race. In an efficient betting market with perfect information, the expected return on any unit bet would equal one minus the track take. This implies that the probability of a horse winning a race would be equivalent to the percentage of money bet on that horse. Previous studies have shown that racetrack betting markets are not efficient (see Thaler and Ziemba (1988) for an overview). Numerous empirical studies have

BETTING MARKET EFFICIENCY AT PREMIERE RACETRACKS

Betting markets are efficient at aggregating information into prices but not in zero time. Starting prices for horse races are long-term efficient (over many races prices represent the true chances of a horse winning) but when a betting market opens the prices are rarely at their starting prices.

Since the track is a market similar in many ways to the stock market one would expect that the basic strategies would be either fundamental or technical in nature. Fundamental strategies utilize past data available from racing forms, special sources, etc. to "handicap" races. The investor then wagers on one or more horses whose probability of winning exceeds that determined by the odds by an amount sufficient to overcome the track take.
