The Man Who Would Be King

The First American in Afghanistan *Farrar, Straus and Giroux* The Riveting Account of the American Who Inspired Kipling's Classic Tale and the John Huston Movie In the year 1838, a young adventurer, surrounded by his native troops and mounted on an elephant, raised the American flag on the summit of the Hindu Kush in the mountainous wilds of Afghanistan. He declared himself Prince of Ghor, Lord of the Hazarahs, spiritual and military heir to Alexander the Great. The true story of Josiah Harlan, a Pennsylvania Quaker and the first American ever to enter Afghanistan, has never been told before, yet the life and writings of this extraordinary man echo down the centuries, as America finds itself embroiled once more in the land he first explored and described 180 years ago. Soldier, spy, doctor, naturalist, traveler, and writer, Josiah Harlan wanted to be a king, with all the imperialist hubris of his times. In an extraordinary twenty-year journey around Central Asia, he was variously employed as surgeon to the Maharaja of Punjab, revolutionary agent for the exiled Afghan king, and then commander in chief of the Afghan armies. In 1838, he set off in the footsteps of Alexander the Great across the Hindu Kush and forged his own kingdom, only to be ejected from Afghanistan a few months later by the invading British. Using a trove of newly discovered documents and Harlan's own unpublished journals, Ben Macintyre's The Man Who Would Be King tells the astonishing true story of the man who would be the first and last American king.

The Man Who Would Be King

Large Print The Law, as quoted, lays down a fair conduct of life, and one not easy to follow. I have beenfellow to a beggar again and again under circumstances which prevented either of usfunding out whether the other was worthy. I have still to be brother to a Prince, though lonce came near to kinship with what might have been a veritable King and was promisedthe reversion of a Kingdom - army, law-courts, revenue and policy all complete. But, today, I greatly fear that my King is dead, and if I want a crown I must go and hunt it formyself.The beginning of everything was in a railway train upon the road to Mhow from Ajmir.There had been a deficit in the Budget, which necessitated travelling, not Second-class, which is only half as dear as First-class, but by Intermediate, which is very awful indeed.There are no cushions in the Intermediate class, and the population are eitherIntermediate, which is Eurasian, or native, which for a long night journey is nasty; orLoafer, which is amusing though intoxicated. Intermediates do not patronize refreshmentrooms. They carry their food in bundles and pots, and buy sweets from the nativesweetmeat-sellers, and drink the roadside water. That is why in the hot weatherIntermediates are taken out of the carriages dead, and in all weathers are most properlylooked down upon.My particular Intermediate happened to be empty till I reached Nasirabad, when a hugegentleman in shirt-sleeves entered, and, following the custom of Intermediates, passed thetime of day. He was a wanderer and a vagabond like myself, but with an educated taste forwhiskey. He told tales of things he had seen and done, of out-of-the-way corners of theEmpire into which he had penetrated, and of adventures in which he risked his life for a few days' food. "If India was filled with men like you and me, not knowing more than thecrows where they'd get their next day's rations, it isn't seventy millions of revenue the landwould be paying - it's seven hundred million," said he; and as I looked at his mouth andchin I was disposed to agree with him. We talked politics - the politics of Loaferdom thatsees things from the underside where the lath and plaster is not smoothed off - and wetalked postal arrangements because my friend wanted to send a telegram back from thenext station to Ajmir, which is the turning-off place from the Bombay to the Mhow line asyou travel westward. My friend had no money beyond eight annas which he wanted fordinner, and I had no money at all, owing to the hitch in the Budget before mentioned.Further, I was going into a wilderness where, though I should resume touch with theTreasury, there were no telegraph offices. I was, therefore, unable to help him in any way

The Man Who Would Be King *Aegitas* "The Man Who Would Be King" (1888) is a novella by Rudyard Kipling. It is about two British adventurers in British India who become kings of Kafiristan, a remote part of Afghanistan. The story was inspired by the exploits of James Brooke, an Englishman who became the first White Rajah of Sarawak in Borneo; and by the travels of American adventurer Josiah Harlan, who was granted the title Prince of Ghor in perpetuity for himself and his descendants. It incorporates a number of other factual elements such as the European-like appearance of many Nuristani people, and an ending

modelled on the return of the head of the explorer Adolf Schlagintweit to colonial administrators.

The Man Who Would Be King

(Annotated Edition)

The narrator begins by asserting that he almost came to know a king once; more than that he came close to having a role in the king's rule over a kingdom. The king is now dead, however, and so if he wants to get close to a crown again, it will have to be his own crown. He is currently forced to travel by train from Amjir to Mhow in India back in intermediate class because his recent fall into hard times has at least temporarily take him away from his usual accommodations in first class. And so as he shares a car among the lowest class of society, he spies a fellow traveler to far offshoots of his country's empire and soon they are sitting down to trade stories of coming up against that part of traveling to India not found on the tourist agenda.

An Almost Epic Tale of Moguls, Movies, and a Company Called DreamWorks *HHM*

“The definitive history of the studio” created by the larger-than-life team of Spielberg, Geffen, and Katzenberg (Los Angeles Times). For sixty years, since the birth of United Artists, the studio landscape was unchanged. Then came Hollywood’s Circus Maximus—created by director Steven Spielberg, billionaire David Geffen, and Jeffrey Katzenberg, who gave the world The Lion King—an entertainment empire called DreamWorks. Now Nicole LaPorte, who covered the company for Variety, goes behind the hype to reveal for the first time the delicious truth of what happened. Readers will feel they are part of the creative calamities of moviemaking as LaPorte’s fly-on-the-wall detail shows us Hollywood’s bizarre rules of business. We see the clashes between the often-otherworldly Spielberg’s troops and Katzenberg’s warriors, the debacles and disasters, but also the Oscar-winning triumphs, including Saving Private Ryan. We watch as the studio burns through billions of dollars, its rich owners get richer, and everybody else suffers. LaPorte displays Geffen, seducing investors like Microsoft’s Paul Allen, showing his steel against CAA’s Michael Ovitz, and staging fireworks during negotiations with Paramount and Disney. Here is a blockbuster behind-the-scenes Hollywood story—up close, glamorous, and gritty.

The Man Who Would Be Queen

The Science of Gender-Bending and Transsexualism *Joseph Henry Press*

Gay. Straight. Or lying. It’s as simple and straightforward as black or white, right? Or is there a gray area, where the definitions of sex and gender become blurred or entirely refocused with the deft and practiced use of a surgeon’s knife? For some, the concept of gender is the very idea we have of ourselves as either male or female beings is neither simple nor straightforward. Written by cutting-edge researcher and sex expert J. Michael Bailey, The Man Who Would Be Queen is a frankly controversial, intensely poignant, and boldly forthright book about sex and gender. Based on his original research, Bailey’s book is grounded firmly in science. But as he demonstrates, science doesn’t always deliver predictable or even comfortable answers. Indeed, much of what he has to say will be sure to generate as many questions as it does answers. Are gay men genuinely more feminine than other men? And do they really prefer to be hairdressers rather than lumberjacks? Are all male transsexuals women trapped in men’s bodies or are some of them men who are just plain turned on by the idea of becoming a woman? And how much of a role do biology and genetics play in sexual orientation? But while Bailey’s science is provocative, it is the portraits of the boys and men who struggle with these questions and often with anger, fear, and hurt feelings that will move you. You will meet Danny, an eight-year old boy whose favorite game is playing house and who yearns to dress up as a princess for Halloween. And Martin, an expert makeup artist who was plagued by inner turmoil as a youth but is now openly homosexual and has had many men as sex partners. And Kim, a strikingly sexy transsexual who still has a penis and works as a dancer and a call girl for men who like she-males while she awaits sex reassignment surgery. These and other stories make it clear that there are men and men who become women who want only to understand themselves and the society that makes them feel like outsiders. That there are parents, friends, and families that seek answers to confusing and complicated questions. And that there are researchers who hope one day to grasp the very nature of human sexuality. As the striking cover image a distinctly muscular and obviously male pair of legs posed in a pair of low-heeled pumps makes clear, the concept of gender, the very idea we have of ourselves as either male or female beings, is neither simple nor straightforward for some.

Revenge of the Nerd

Or . . . The Singular Adventures of the Man Who Would Be Booger *Thomas Dunne Books*

Risky Business. Revenge of the Nerds. Better Off Dead. Moonlighting. Supernatural. American Dad. New Girl. What do all of these movies and television shows have in common? Curtis Armstrong. A legendary comedic second banana to a litany of major stars, Curtis is forever cemented in the

public imagination as Booger from Revenge of the Nerds. A classically trained actor, Curtis began his incredible 40-year career on stage but progressed rapidly to film and television. He was typecast early and it proved to be the best thing that could have happened. But there’s more to Curtis’ story than that. Born and bred a nerd, he spent his early years between Detroit, a city so nerdy that the word was coined there in 1951, and, improbably, Geneva, Switzerland. His adolescence and early adulthood was spent primarily between the covers of a book and indulging his nerdy obsessions. It was only when he found his true calling, as an actor and unintentional nerd icon, that he found true happiness. With whip-smart, self-effacing humor, Armstrong takes us on a most unlikely journey—one nerd’s hilarious, often touching rise to the middle. He started his life as an outcast and matured into...well, an older, slightly paunchier, hopefully wiser outcast. In Hollywood, as in life, that counts as winning the game.

The Man from the Future: The Visionary Life of John von Neumann *W. W. Norton & Company*

An electrifying biography of one of the most extraordinary scientists of the twentieth century and the world he made. The smartphones in our pockets and computers like brains. The vagaries of game theory and evolutionary biology. Nuclear weapons and self-replicating spacecrafts. All bear the fingerprints of one remarkable, yet largely overlooked, man: John von Neumann. Born in Budapest at the turn of the century, von Neumann is one of the most influential scientists to have ever lived. A child prodigy, he mastered calculus by the age of eight, and in high school made lasting contributions to mathematics. In Germany, where he helped lay the foundations of quantum mechanics, and later at Princeton, von Neumann’s colleagues believed he had the fastest brain on the planet—bar none. He was instrumental in the Manhattan Project and the design of the atom bomb; he helped formulate the bedrock of Cold War geopolitics and modern economic theory; he created the first ever programmable digital computer; he prophesized the potential of nanotechnology; and, from his deathbed, he expounded on the limits of brains and computers—and how they might be overcome. Taking us on an astonishing journey, Ananyo Bhattacharya explores how a combination of genius and unique historical circumstance allowed a single man to sweep through a stunningly diverse array of fields, sparking revolutions wherever he went. The Man from the Future is an insightful and thrilling intellectual biography of the visionary thinker who shaped our century.

The Men Who Would Be King

The Men Who Would Be King tells the stories of men from the West who go to Vanuatu claiming/believing they are the fulfilment of a prophecy on the islands that says a divine man will come from overseas. These tales are as wily as any fiction; a claimant to a tropical throne living in exile in Nice, an American filmmaker wandering between villages handing out necklaces of his own face. This book asks why the old explorers dream about deified white men has endured in the Western imagination, through films and literature, and examines the long shadow it casts into our own time.

The Men Who Stare at Goats *Simon and Schuster*

Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren’t joking. What’s more, they’re back—and they’re fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious “Goat Lab,” to Uri Geller’s covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.

Ramaphosa

The Man who Would be King
Deputy President Cyril Ramaphosa is credited with driving through the deal between the apartheid government and the African National Congress that was at the heart of South Africa's democratic constitution. He was the ANC's lead negotiator and the man who persuaded one of the most recalcitrant racist governments in the world to buy into a settlement based on one of its most enlightened bills of rights. But once the ink had dried on the constitution, Ramaphosa found himself politically sidelined. Before the negotiations he had been the head of the country's largest mineworkers union. Afterwards, he went into business after concluding a landmark black empowerment deal. A talented negotiator capable of driving a hard bargain between implacable enemies, Ramaphosa has always been 'the man in the middle'. Now, as Jacob Zuma's presidency enters its final stretch, Ramaphosa has re-entered politics and is one of a handful of candidates to take over as ANC president and as president of South Africa. Should he succeed, he will take over a country that has been battered by years of corruption and misrule which flourished under Zuma. The question that everyone is asking is: can the man in the middle lead from the front? Ray Hartley, author and seasoned journalist, attempts to answer that question by looking at how Ramaphosa has handled the key challenges he has faced in the unions, in business and in politics.

The Man Who Would Be Sherlock

The Real-Life Adventures of Arthur Conan Doyle *Thomas Dunne Books*
A world-famous biographer reveals the strange relationship between Sir Arthur Conan Doyle's real life and that of Sherlock Holmes in the engrossing The Man Who Would Be Sherlock. Though best known for the fictional cases of his creation Sherlock Holmes, Conan Doyle was involved in dozens of real life cases, solving many, and zealously campaigning for justice in all. Stanford thoroughly and convincingly makes the case that the details of the many events Doyle was involved in, and caricatures of those involved, would provide Conan Doyle the fodder for many of the adventures of the violin-playing detective. There can be few (if any) literary creations who have found such a consistent yet evolving independent life as Holmes. He is a paradigm that can be endlessly changed yet always maintains an underlying consistent identity, both drug addict and perfect example of the analytic mind, and as Christopher Sandford demonstrates so clearly, in many of these respects he mirrors his creator.

The Man Who Would Be King *Lindhardt og Ringhof*
"The Man Who Would Be King" (1888) is inspired by the real-life actions of James Brook, a British soldier who made himself Rajah of Sarawak (Borneo). In this short story, Kipling tells of two crook characters, Daniel Dravot and Peachey Carnehan, through a third character, an Indian journalist, who is acquainted with the men. Their plan is simple: they will leave India and go to Kafiristan, a remote part of Afghanistan, and set themselves up as kings there by force. Joseph Rudyard Kipling (1865-1936) was an India-born British author, journalist, poet, and novelist. His most famous work is "The Jungle Book" (1894), which has inspired two Disney adaptations: the 1967 animated feature and the 2016 live-action film starring Scarlett Johansson, Bill Murray, and Lupita Nyong’o. In 1941, he became the first English-language writer to be awarded the Nobel Prize in Literature.

The Man Who Would Be Kipling

The Colonial Fiction and the Frontiers of Exile *Springer*
This study places Kipling's fiction in its original cultural, intellectual and historical contexts, exploring the impact of India, America, South Africa and Edwardian England on his imperialist narratives. Drawing on manuscripts, journalism and unpublished writings, Hagiooannu uncovers the historical significance and hidden meanings of a broad range of Kipling's stories, extending the discussion from the best-known works to a number of less familiar tales. Through a combination of close textual analysis and lively historical coverage, The Man Who Would Be Kipling suggests that Kipling's political ideas and narrative modes are more subtly connected with lived experience and issues of cultural environment than critics have formerly recognized.

The Diving Bell and the Butterfly *Vintage*
A celebration of the liberating power of consciousness—a triumphant book that lets us witness an indomitable spirit and share in the pure joy of its own survival. In 1995, Jean-Dominique Bauby was the editor-in-chief of French Elle, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the

brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again and again he returns to an "inexhaustible reservoir of sensations," keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.

George Raft - The Man Who Would Be Bogart

BearManor Media

During his lengthy show business career, George Raft achieved the reputation as one of the screen's toughest and most convincing movie mobsters. His roles in *Scarface*, *Each Dawn I Die*, *Invisible Stripes*, *Rogue Cop* and *Some Like it Hot* were so convincing that audiences frequently thought they were watching the genuine article. Yet to classify Raft merely as a cinema gangster is to do him a disservice. He delivered equally strong performances in such classics as *Night After Night*, *Bolero*, *Souls at Sea*, *Spawn of the North*, *They Drive by Night* and *Manpower*, his success in these roles quickly establishing him as one of the top box office draws during the 1930s and 40s. But Raft just missed the brass ring of superstardom - due to his notorious friendships with men such as "Bugsy" Siegel and, more significantly, his famous rejections of films that his rival Humphrey Bogart turned into major triumphs: *Dead End*, *High Sierra* and *The Maltese Falcon*. Written with the generous cooperation of many of Raft's friends and co-workers, *George Raft: The Man Who Would Be Bogart* details the fascinating life and career highs and lows of a man who created an unforgettable image - onscreen and off.

The Man Who Would Be King: Selected Stories of Rudyard Kipling

Selected Stories of Rudyard Kipling *Penguin UK*

Rudyard Kipling is one of the most magical storytellers in the English language. This new selection brings together the best of his short writings, following the development of his work over fifty years. They take us from the harsh, cruel, vividly realized world of the 'Indian' stories that made his name, through the experimental modernism of his middle period to the highly-wrought subtleties of his later pieces. Including the tale of insanity and empire, 'The Man Who Would Be King', the high-spirited 'The Village that Voted the Earth Was Flat', the fable of childhood cruelty and revenge 'Baa Baa, Black Sheep', the menacing psychological study 'Mary Postgate' and the ambiguous portrayal of grief and mourning in 'The Gardener', here are stories of criminals, ghosts, femmes fatales, madness and murder.
