Catch-Up Industrialization: The Trajectory and Prospects ...

Catch-Up Industrialization is an innovative examination of how the political ideology of "developmentalism" has driven East Asian economic growth. The author considers innovative production and management techniques, the patterns of industrial relations, and the way education shapes the workforce, using this information to assess late 20th century East Asian economic development based on economic liberalization and the rapid diffusion of information technology.

Of course, labor-as class and human capital-is fundamental to innovation, and Catch-Up Industrialization devotes significant space to the structure of labor markets, to personnel management, to the politics of labor movements, and to diverse approaches to education and training. These pages document important shifts in East Asian workforces, including not only growing female participation but also a pattern that has only increased in significance since the book’s publication – namely ...
