Governance, Accountability and Ownership of Cybersecurity In businesses, large and small, cyber anxiety is reaching epidemic levels. With crippling breaches, damaging fines, internal and external threats and careers on the line, CEOs need to champion effective cyber leadership. But what exactly does that look like?

Governance, Accountability and Ownership of Cybersecurity

Unfortunately the accountability of the user is yet to be well understood, which leads to error or justified flouting of the rules, often with management support, in order to get a job done. This...

Accountability is key to security - ComputerWeekly.com

Accountability is a real opportunity for you to show, and prove, how you respect people's privacy. This can help you to develop and sustain people's trust. Furthermore, if something does go wrong, then being able to show that you actively considered the risks and put in place measures and safeguards can help you provide mitigation against any potential enforcement action.

Accountability and governance | ICO

Among those aspects of consistency is taking accountability for the cyber security of the organization. Joe Sullivan, Former CISO, Uber has been charged with obstruction of justice and misrepresentation of a felony by the FBI/DOJ due to allegedly deliberately covering-up the exposure of PII of half-a-million people and positioning the subsequent ransom paid as an ethical/white hat/bug bounty.

CISO Accountability | Cyber Security Hub

Instead of serving and protecting the Nigerian people, the colonial-era NPF destroyed the fabric of indigenous community-grown systems of security, justice, law enforcement, and dispute resolution. 7 After Nigeria's 1967–1970 civil war, police accountability was further limited when the force was centralized. The negative consequences of this history were compounded by years of military misrule, which held back the NPF's institutional development and left it weakened once democratic ...
