The Natural History is a work by Pliny the Elder. It is one of the largest single works to have survived from the Roman Empire to the modern day and purports to cover all ancient knowledge. The work's subject area is thus not limited to what is today understood by natural history; Pliny himself defines his scope as "the natural world, or life". It is encyclopedic in scope, but its structure is not like that of a modern encyclopedia. It is the only work by Pliny to have survived, and the last tha

Information. 'The Natural History of German Life' is a review by George Eliot of two books by the German writer W H Riehl. However, the first section of the review does not mention Riehl's works. Instead, Eliot writes about the morality of artistic representation, offering a manifesto for realism. The review appeared in the Westminster Review in July 1856.
