Modeling Demographic Processes in Marked Populations ...

The EURING technical conferences were originally established to bring together ecologists and statisticians to develop methods to estimate demographic parameters such as survival, recruitment, density, population size and movement from the large accumulated datasets on marked birds, but many methods are also

relevant to other taxa.

Modelling demographic processes in marked populations ...

Demography can be considered the key to understanding much of biology. It is the demographic processes of birth and death which govern the spread of populations through environments and the spread of genes through populations. An understanding of demography can yield not only an understanding of population size and population change, it can help us to understand the form and function of life ...

Modeling Demographic Processes in Marked Populations ...

It is the demographic processes of birth and death which govern the spread of populations through environments and the spread of genes through populations. An understanding of demography can yield not only an understanding of population size and population change, it can help us to understand the form and function of life histories; when organisms mature, when they breed, and when they die.
