Richard Stiggins in his article “Assessment, Student Confidence and School Success” offers an alternative vision in which teachers can use assessment to build student confidence. It can happen by rethinking the relationship between assessment and effective schooling.

Assessment, Student Confidence and School Success

There are generally two forms of student assessment that are most frequently discussed in the scholarship of teaching and learning. The first, summative assessment, is assessment that is implemented at the end of the course of study. Its primary purpose is to produce a measure that “sums up” student learning.
