By Dennis Adler. A little over 17 years ago Umarex introduced its first blowback action CO2 semi-auto air pistol, the Walther PPK/S. The latest version (left) is remarkably close in appearance to the PPK/S introduced by Walther in 1968 for importation and sale in the United States. A little over 17 years ago, Umarex stunned the world of airgun with the introduction of the first ever blowback action semiautomatic air pistol.

The slide blowback action is realistic and nice for teaching beginning shooters to steady the gun. You get about 3-5 magazines out of a single 12 gram CO2 cartridge. The muzzle velocity is 1/3 that of a 22 LR, so it's not going to be a long range or hunting gun, but way better than spring action BB pistols.
