The P3 System not only increases the potential for profit, conversely, it deceases the chances of loss. If a stock trades above the agreed upon sale price (strike price) of the underlying asset before the expiration date of the option, your "call" option becomes very valuable... and if it doesn't...well, the option could become worthless.

The P3 Squeeze pattern is formed by two unrelated indicators. Truly, they have nothing to do with each other, and yet, in a fortuitous discovery, I found that when they are placed on top of each other, they create a pattern when accompanied by other confirmations that shows when an equity is ready to burst upward.
