D80 Camera Manual | Nikon

I set Auto ISO to 1,600 max because the noise from the D80 at ISO 1,600 looks much better than blur. I set 1/15 because my Nikon 18-200mm gives great results down to 1/15. I adjust the lowest shutter speed setting in the AUTO ISO menu if I change conditions or lenses. Unlike film, my D80 looks great at high ISOs, so I use them anytime I need them.

According to Nikon D80 Manual if you see "ERR" on your LCD or electronic viewfinder, you likely have experienced one of three problems. First, the shutter button may not have depressed properly. Second, the camera could not capture the image using your manual exposure settings; try changing the settings or using automatic settings.
