The Big Shift Global campaign. Calling for an end to public financing of fossil fuels and a shift to investing in sustainable, renewable energy to provide energy access for all. In *The Big Shift*, Freedman bemoans the fact that the discussion about longer lives in America has been entirely about the staggering economic costs of a dramatically aging society when, in reality, most of the nation's 78 million boomers are not getting old — at least not yet. The whole 60- to 80-year-old period is simply new territory, he writes, and the people in this period constitute a whole new phenomenon in the 21st century.
