Biology Cell Communication Guide - app.wordtail.com

Cells transmit and receive signals acquired from fellow cells or by the environment surrounding the cell. The signals are transmitted across the cell membrane to prompt a response. The signal can cross the membrane itself, or it can interact with receptor proteins that contact both the interior and exterior of a cell. The correct receptor needs to be present on the cells surface to be able to respond to the signal. Signals pass from protein to protein when the signal travels through the cell mem
